# Alexis

Ko se v večnost klasičnih form  
vpelje nekaj drznosti, se  
ustvari Alexis.

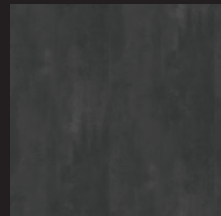

When some boldness is added to the eternity of classical forms, Alexis comes to life.

CW

DC

GN

Mehke, tanke linije ovalnih umivalnikov razbijajo mrežo ravnih linij in vpeljujejo lahkotnost, igrivost, celo domišljavost. So le rahel dotik drugačnega, da Alexis izpopolnijo v navdušujočo kopalnico vaših sanj.

The soft, slender lines of the oval washbasins break the net of straight lines and introduce lightness, playfulness, even vanity. They are just a light touch of something different to help Alexis turn your bathroom into the exciting bathroom of your dreams.

Elegantne, brezčasne linije uokvirjajo drznejše plati tega priljubljenega dekorja – svetel les, za vtis domačnosti ali zeleni dekor, za vse, ki želijo biti v koraku z najnovejšimi trendi.

Pohištvo Alexis omogoča izbiro med 4 različno-dimenzijskimi umivalniki Soft in Lux. Kopalnica po vaši želji.

Elegant, timeless lines frame the bolder sides of this popular decor – light wood for an impression of homeliness or a green front for anyone who wants to keep up with the latest trends.

The Alexis furniture line allows you to choose between four differently sized Soft and Lux washbasins. A bathroom to your liking.

Eno od pomembnih vodil pri snovanju Alexisa je bila tudi vsestranska uporabnost kopalnice, zato estetsko dovršenost dopolnjujejo velike odlagalne površine in dvojno okroglo ogledalo – včasih mora ogledalo ujeti tudi več kot samo eno lepoto na enkrat.

One of the important guidelines in designing Alexis was the versatility of the bathroom so the aesthetic perfection is complemented by large storage areas and a double round mirror – sometimes the mirror has to capture more than just one beauty at a time.

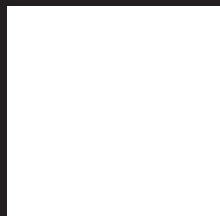

# Vittoria

Unikatno spajanje klasike in futurizma, da nastane koncept, ki oddaja pridih glamurja in aristokracije.

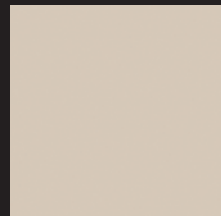

A unique fusion of classicism and futurism to create a concept that radiates a touch of glamour and aristocracy.

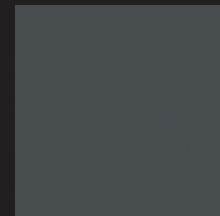

WH

BE

DG

Prestižna Vittoria se igra z linijami, ki se iz ravnih nenadoma pretvorijo v ukrivljene in mehke.

The luxurious Vittoria plays with its lines, suddenly turning from straight to curved and soft.

Igra se z barvami, ko odtenki iz prej nevidnih detajlov ustvarjajo vizualno doživetje. In igra se s kontrasti, ker si tudi kopalnica zasluži dinamičen videz.

Vittoria se ponuja v treh enobarvnih dekorjih – beli, bež in temni. Da je vtis glamurja še poudarjen, so fronte pri elementih lakirane.

It plays with colours as shades from previously invisible details create a visual experience. It also plays with contrasts since the bathroom deserves a dynamic look as well.

Vittoria is available in three monochrome decors – white, beige and dark. To enhance the impression of glamour, the front surfaces of the elements are varnished.

Za večje kopalnice je na voljo dvojna širina omaric, ki s seboj prinašajo mehko zapiranje, vse pa estetsko dopolnjujejo delno integrirani ročajji.

Double-width cabinets are available for larger bathrooms, with a soft-close mechanism and aesthetically complemented by partially integrated handles.

Kopalniški koncept Vittora nudi veliko odlagalnih površin – estetika se namreč ne podreja funkcionalnosti, ampak jo le premeteno dopolnjuje.

The Vittora bathroom line offers a lot of storage space with aesthetics not submitting to functionality, but only cleverly complementing it.

# Grace

Spajanje naravnih materialov z drzno eleganco vodi v nesluten preplet barv, ki istočasno navduši in pomirja.

Combining natural materials with bold elegance for an imaginative play of colours that simultaneously excites and soothes.

LC

HO

Ozke, črne linije so izrazit detajl na sicer nežnih, lesenih teksturah, da Grace postane naša najbolj graciozna kompozicija.

Sleek black lines are a distinct detail on the otherwise delicate woody textures to make Grace our most graceful composition.

Kovinski črni ročajji na elementih na eni strani umirjeni estetiki dajejo simpatično drznost, na drugi strani pa ustvarjajo privlačno simetrijo, ki se sklada s preostalimi linijami pohištva.

Metallic black handles on elements give a cute boldness to the calm aesthetic on the one hand and on the other hand create an attractive symmetry that matches the rest of the furniture.

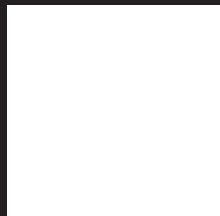

# Naomi

Z modularnim pristopom opremljanja omogoča sestavljanje raznolikih kopalniških kompozicij, da lahko ustvarimo prav takšno, ki bo odgovarjala vsem vašim željam in potrebam.

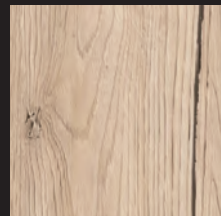

With a modular approach to furnishing, it allows you to assemble a variety of bathroom compositions to create the right one that meets all your wishes and needs.

Estetska klasika, ki nikogar ne pusti  
ravnodušnega, lahko vključuje temni ali beli  
hrast, ki dotik rustikalnega vpelje v sicer  
umirjeno, sodobno dizajnersko noto.

Classic beauty that impresses everyone  
can include dark or white oak for a  
touch of rustic into an otherwise calm  
modern design.

Med elementi vsekakor navduši tudi umivalnik, ki sovpada z izrazitimi linijami in ozkimi robovi preostalih kosov, za vtis neokrnjene elegancje.

The element that makes the impression of unspoiled elegance is certainly the washbasin, which goes hand in hand with the expressive lines and narrow edges of other pieces.

V središču pozornosti se bohoti velika zrcalna površina, s katero se optično poveča prostor ali pa se doda manjše, okroglo zrcalo, ki s svojo enotno ukrivljeno linijo uporniško krši niz ravnih, pravilnih linij.

A large mirrored surface is the center of attention, optically enlarging the room, or a smaller round mirror with its uniform curved line rebelliously violating a series of straight regular lines can be added.
