COMPANY

For **almost 30 years**, Arblu has been **designing, producing** and retailing **Made in Italy** solutions for bathroom, paying attention to quality, design, research, innovation and contemporary trends in furnishing and wellness. The product range includes shower enclosures, shower trays, furniture and decorative radiators for a **complete and coordinated bathroom furnishing**.

Building quality of life

We take care of people's wellbeing, making the home a place to enjoy wonderful experiences and pleasure for the senses.

Our focus is on creating the most **advanced solutions** to meet the need to create precious moments for oneself, of relaxation and joy, in the comfort of one's own home that becomes a true oasis of **well-being**.

Thanks to innovation, attention to detail and service of our team of unique people, we build rooms in which to enjoy intensely, always aiming at **sustainability, for people and the environment**.

Mission

We create with **attention to detail, innovation** and vision, providing a **product of design, functional** and sustainable for the community and the environment.

We work to make the product pleasant, natural and easy to use for those who sell it, those who install it and those who will experience it. We strive to **create value** with the passion and pride of **our unique group of people**.

CODE OF ETHICS

Arblu has adopted a code of ethics, the organisation, management and control model in accordance with **Legislative Decree 231/01**, whose rules of conduct are inspired by principles and values affirmed not only in official company documents as well as in the management ethics that have characterised the development in almost 30 years of activity.

QUALITY AND CERTIFICATIONS

Our entire product range is manufactured in Italy and complies with European directives to class **E1**, **EN 717** regulation and the US **CARB2** and **TSCA TITLE VI** directives for formaldehyde emission of all wood-based composite materials.

ISO 9001 AND ISO 45001 CERTIFICATIONS

Arblu, with the aim of improving the efficiency of its structure, respecting safety of its employees in the workplace, has received the certification ISO 9001 'Quality Management Systems' and ISO 45001 'Management Systems for the safety protection in the workplace'.

The certifying body for the integrated system is Bureau Veritas, a world leader in control, verification and certification services for Quality, Health and Safety in companies.

ISO 9001 n° IT335352

ISO 45001 n° IT335349

SUSTAINABILITY, A CONCRETE VALUE

The **eco-sustainable approach** by companies today cannot be just a trend or a slogan but must be a **conscious choice** and implemented at every stage of product life, from its conception to its production, delivery and use. Arblu was one of the first companies in the bathroom sector to commit to this. We design with attention to detail, innovation and vision, delivering a design, functional and **sustainable product for the community and the environment**.

Sustainability Manifesto

On the occasion of the **Festival of the Green Economy**, Arblu joined the **Manifesto of Green Companies** to achieve a series of goals in the coming years that are consistent with the European commitment to **zero CO₂ emissions by 2050** and to implement policies aimed at creating value for the community and the environment.

Green energy in the company

Clean energy is another Arblu's area of interest. The **photovoltaic system** on our headquarters can produce energy to **cover 100% of our energy needs** and in surplus, to be more eco-friendly and reduce unsustainable energy consumption.

Supporting the work of the territory

A hallmark of Arblu is its belief in and support for the **development and enhancement of local companies and workers**, redistributing wealth within the territory.

Our products are conceived, designed and engineered by the Arblu team and produced in our company with materials, for the most part, from local suppliers.

Certified and durable materials

From **selected and certified suppliers**, we receive **materials of first choice** to ensure a **long product life**.

Arblu is committed to using a short supply chain. This not only reduces the environmental impact of transport, but it also ensures tighter control and collaboration on product quality.

Ecological packaging

Arblu packaging is tailor-made for our products with recycled and recyclable cardboard, ensuring waste reduction and maintaining a high level of safety during transport. The use of polystyrene as a packaging material has long been criticised due to its poor biodegradability and harmful effects on the environment, so Arblu is working to remove it completely from packaging.

BASIC RULES

- › Always specify the dimension and finish of the top
- › Always specify the position of the washbasin
- › Specify the type of washbasin you want to install
- › Specify the name of the washbasin and the manufacturer
(if necessary, send the real template or the washbasin itself)

NB:

- › Any out of square plans are only executed with your 1: 1 scale template
- › In case of tap hole on the side, standard is on the right side
- › The measures shown in the table do not include the top edges:
5 mm front and 3 mm lateral (3 + 3 mm in total)
- › Any tap holes are included in the price

TECHNICAL RESINS TOPS

MATERIAL CHARACTERISTICS

TECNOBLU

Solid material (Solid surface), non-porous, coloured in paste even and not treated with paints, it is composed of mineral fillers and resins.

GEABLU

Material composed of natural minerals and resins, coated with a surface film (Gealcoat), with smooth surface.

PIETRABLU

Material composed of natural minerals and resins, coated with a surface film (Gealcoat), with textured surface.

CLEANING AND MAINTENANCE

Cleaning and maintenance	TECNOBLU	GEABLU	PIETRABLU
Daily cleaning	Use lukewarm water, sponge and mild detergents; dry with a soft cloth.	Use lukewarm water, sponge and mild detergents; dry with a soft cloth.	Use lukewarm water, sponge and mild detergents; dry with a soft cloth.
For stains caused by water rich in limestone, soap or detergent with a clean mineral scale	Use a detergent limescale remover (vinegar, Cif...)	Use anti-scale products, provided they are neither aggressive nor abrasive, preferably vinegar-based. Rinse and dry with a soft cloth.	Use anti-scale products, provided they are neither aggressive nor abrasive, preferably vinegar-based. Rinse and dry with a soft cloth.
For other stains	Use detergents based on ammonia (Cif ammoniacal...) and clean thoroughly with warm water and a soft cloth. Rinse and dry.		
In case of scratches	Use fine sandpaper or a Scotch-Brite® sponge together with any detergent powder, you will achieve the perfect restoration of the surface.	For small scratches simply use Scotch-Brite® or sand with very fine sandpaper (800-1000 grit) until the surface is completely uniform. For deeper marks, a matching touch-up marker can be requested.	For small scratches simply use Scotch-Brite® or sand with very fine sandpaper (800-1000 grit) until the surface is completely uniform. For deeper marks, a matching touch-up marker can be requested.

- › Add the brackets price to the price of the boxed top (minimum 2 brackets for top, from W 140 or with double washbasin with at least 3 brackets)

POSSIBILITY OF PARTIAL BOXED TOP

EXAMPLE

› In case of partial boxed top 

MAINTENANCE MATERIAL

Touch-up marker for Pietrablu and Geablu tops

Characteristics:

8m
lineari

Performance up to 8 linear metres on panel edges.

Quick and easy application, thanks to the spatula shape of the tip.

Available in all Arblu colours.

The high-strength chemical formulation guarantees the durability of the colour.

The marker is useful for touching up and covering any scratches.

Art.	Description	Price
16935	Touch-up marker	30
16937	Repair kit	

› Always specify the finish

WOODEN TOPS

MATERIAL CHARACTERISTICS

CONGLOMERATE

Ecological water-repellent wood panel in CARB class with low formaldehyde content, melamine-faced with wood-effect paper or lacquered. It is a material with scratch resistance, easy to clean and available in various finishes.

MULTILAYER WOOD

Panel of veneered wood Rovere nodato and solid support in 3 layers European Rovere. It is a material with remarkable hardness and scratch resistance, easy to clean, available in various finishes.

VENEERED WOOD

Ecological water-repellent wood panel in CARB class with low formaldehyde content veneered with Rovere rigatino thickness 10/10, eco-friendly thanks to the water-oil treatment.

It is a material with scratch resistance, easy to clean and available in various finishes.

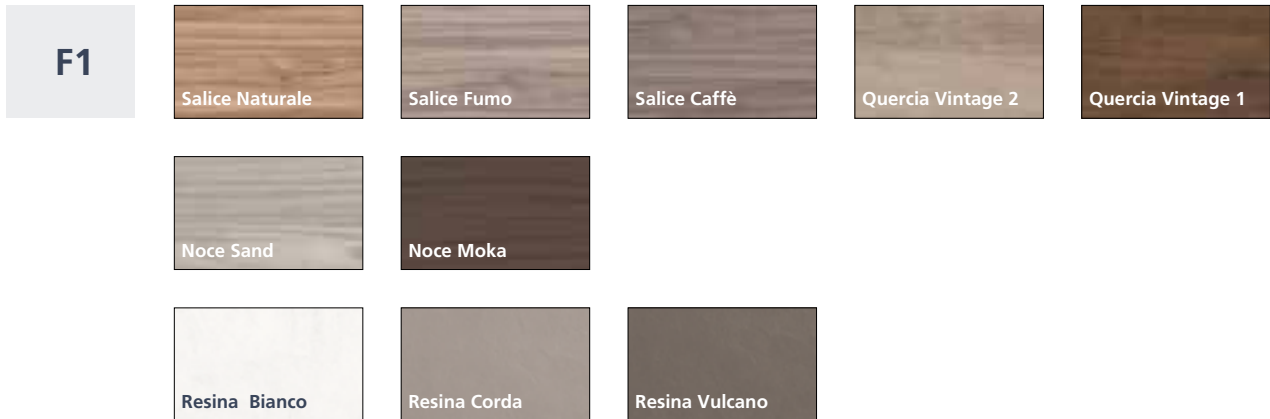

MDF

Panels of medium-density fibreboard in CARB class with a polyester base lacquered in Arblu or RAL colours.

CLEANING AND MAINTENANCE

Thermo-structured and lacquered top: for the top cleaning it is enough to wipe a wet soft cloth with water and diluted alcohol or cleaning glass products. Dry off. The lacquered surfaces require a particularly careful maintenance. Abrasive powders, ammonia and acetone must be avoided.

WOODEN TOP: for the top cleaning it is enough to wipe a wet soft cloth with water and soap or cleaning glass products. Dry off carefully.

GENERAL INFO FOR BOXED TOP

BRACKETS FOR WALL-MOUNTED BOXED TOP

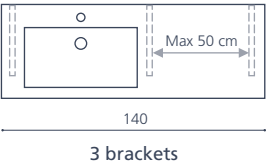

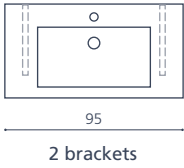

- Characteristics:
- › Maximum load capacity 50 kg
 - › Perpendicularity adjustment
 - › Bracket for D 36, D 45,5 or D 50

Art.	Description	Price
81621	Bracket for top D 36	70
81624	Bracket for top D 45,5 / D 50	70

EXAMPLE NUMBER OF BRACKETS

DECORATIVE BRACKETS

- Characteristics:
- › Maximum load capacity 50 kg
 - › Perpendicularity adjustment
 - › Bracket for D 36 or D 50

Art.	Description	Price
81614	Decorative bracket D 36	286
81615	Decorative bracket D 50	298

- › Add the brackets price to the price of the boxed top (minimum 2 brackets for top, from W 140 or with double washbasin with at least 3 brackets)
- › The wooden boxed top may be used as finishing top too, so leaning on the unit
- › For "brackets for top" always specify the height of the top

GRES TOPS

GRES CHARACTERISTICS - LAMINAM®

One of the most used materials in modern construction for its particular resistance which, combined with its versatility, make stoneware a unique material. The characteristics that make it an excellent solution for the bathroom are:

- Impermeability: water and humidity are not absorbed, the Gres has an absorption coefficient of less than 0.5%.
- Abrasion resistance: it does not wear out due to rubbing and contact, it is not scratched due to the impact of element even harder than its own.
- Chromatic stability: colours are not altered by external agents.

Advantages

Dimensional stability

Hygienic surface

Resistant to fungus and mold

Stain-resistant

UV resistant, no chromatic alteration

Resistant to scratches and abrasions

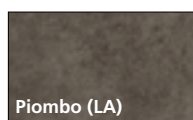

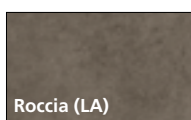

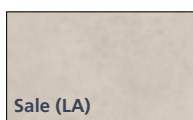

Easy cleaning and maintenance

OCRITECH TOPS

CHARACTERISTICS

Ocritech is a very compact and uniform acrylic-based material (Solid-Surface). Known for its unique characteristics, combining lightness, strength and pleasantness to the touch, it is ideal for the bathroom environment because it can be easily sanitised and disinfected. Ocritech does not contain any pollutants.

Advantages

Cleanable and sanitised

Thermal shocks resistant

Stain-resistant

Resistant to scratches and abrasions

Unalterable through time

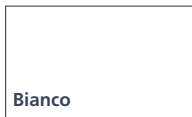

Restorable in case of scratches or superficial stains

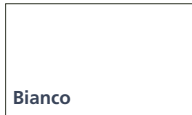

Recyclable

FINISHES

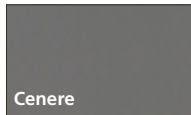

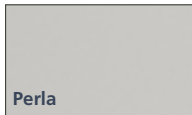

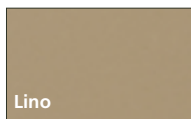

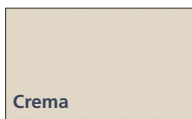

Glossy white = HL

Matt white = HO

Matt coloured = HO

CLEANING AND MAINTENANCE

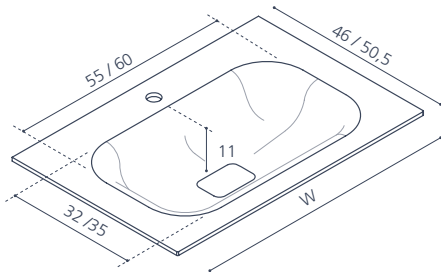

Polished: For normal daily cleaning of washbasin tops made of polished Ocritech use damp cloths or sponges and liquid detergents that do not contain abrasive particles and rinse with water. Use microfibre cloths for drying. Absolutely do not use abrasive detergents, alcohol, acetone or other types of solvents (because they damage the material). In case of accidental spillage of such solvents, rinse quickly with water. To keep the surface shiny, periodically apply common polish.

Matt: For normal daily cleaning of washbasin tops made of matt Ocritech basin tops, use a Scotch Brite sponge to dry and then rinse with water. For drying use microfibre cloths. Do not use alcohol, acetone or other solvents. In the event of accidental spillage of solvents, use water immediately to remove the solvent. For minor damage, the surface can be restored using a Scotch Brite abrasive sponge or a common abrasive cleaner, sanding the damaged part superficially. If the defect is still visible, sand again with very fine abrasive paper.

Top with integrated washbasin CONCA

Characteristics:

- › Washbasin CONCA 5546 standard on D 45,5 optional without surcharge on D 50
- › Washbasin CONCA 6050 standard on D 50
- › Top without overflow
- › Continuous drain, material-coloured, standard
- › Optional tap hole included in the price

ECOMALTA TOPS

ECOMALTA - ECOPUR® CHARACTERISTICS

The Ecomalta Oltremateria® top is a continuous surface, obtained with stratification of mono-component material composed of water based co-polymers and natural and recycled (certified) aggregates, quartz, marble and glass. It is breathable but non-absorbent, non-flammable (UNI-EN-ISO 1716 Bfl-s1) and antistatic. It also offers an excellent degree of resistance to shocks (Shore hardness from 80 to 90) and scratches (Buchholz hardness 42).

Ecomalta, unlike many "similar" products does not contain hydraulic binders such as lime, gypsum or cement and is totally epoxy resins free; for these reasons it can be defined as ecological and it does not cause any sensitization by contact with the skin, it is not harmful, irritant or toxic.

The Ecomalta Oltremateria® covering process is completely handmade. 12 different layers are applied in order to guarantee a product suitable for bathroom environment and the necessary time to complete this process is 2 weeks. There is no use of accelerants, therefore rest periods and cross-linking periods between one application and another are strictly respected.

Ecopur is the revolutionary and innovative system which, applied to Ecomalta surfaces, adds to the technical performance and eco-sustainability, the ability to purify the air from polluting agents and bacteria, and to sanitize environments and combat unwanted odors, refreshing all spaces.

Advantages

Flexible

Antibacterial

Ionizes and purifies the air

UVA rays resistant

Non-toxic

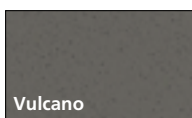

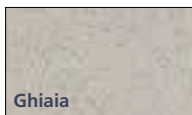

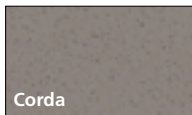

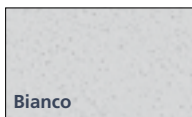

Excellent resistance to dirt and staining agents

Recyclable

FINISHES

Ecomalta = EM

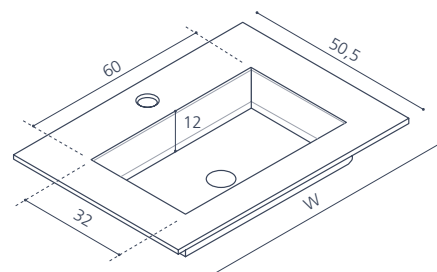

CLEANING AND MAINTENANCE

For daily cleaning use lukewarm water, better if distilled because it does not contain limestone, sponge and delicate detergents; dry with a soft cloth. For stains caused by limestone-rich water, add vinegar to the 20-30-40 % according to need (use apple vinegar in order to not have strong smells). For disinfection there are non-aggressive disinfectant detergents on the market and however the most common ones are fine if stretched with water. it is strongly not recommended the use of alcohol, acetone and detergents with solvents and concentrated acids. For extraordinary maintenance and repairs, specialized personnel may intervene exclusively.

Top with integrated washbasin RETT.6050

Characteristics:

- › Available in 4 different finishes
- › Washbasin RETT.6050 standard
- › Washbasins RETT.4050, RETT.5050 e RETT.7050 optional without surcharge
- › Top without overflow
- › Continuous drain, chrome, standard
- › Continuous drain, material-coloured, optional

GLASS TOPS

CHARACTERISTICS

Glass is a natural and recyclable material, transparent and hard. Its surface is very smooth and this reason makes it a hygienic and clean material, very suitable for vanity units. Furthermore the modern processing techniques allow to obtain plans with integrated washbasins (obtained from a single fusion) that, thanks to the absence of edges, offer perfect hygiene.

Float glass

This is the most commonly used glass. In some cases, because of greenish-blue reflexes, tends to vary the perception of the colour. The glass is 1,5 cm thick.

Extra Light glass

It is a variant of the previous one. Its main difference is the almost complete absence of reflections. The colour is perceived without distortion. Available for glass 1,5 cm and 1 cm thick.

"Satin" effect

Effect is a pleasant tactile sensation is obtained starting from the extra light glass. This type of workmanship creates an effect that amplifies the colour of the glass that is even provided with an anti-fingerprint treatment. Available for glass 1,5 cm and 1 cm thick.

GLASS THICKNESS

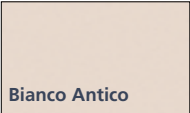

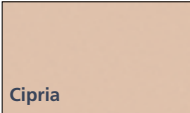

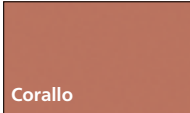

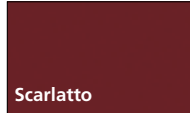

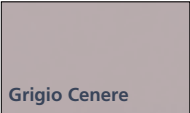

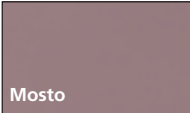

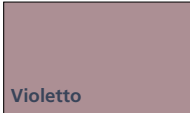

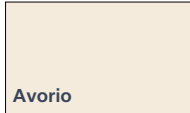

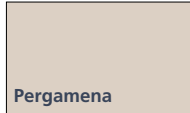

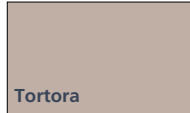

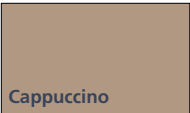

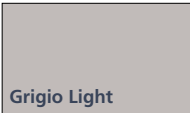

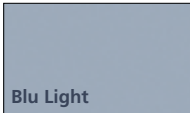

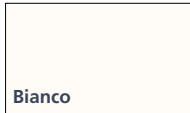

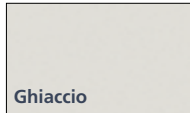

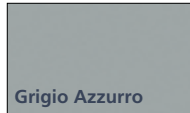

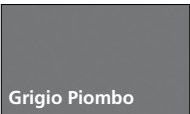

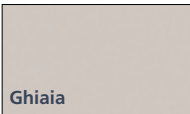

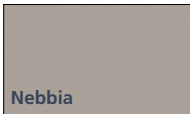

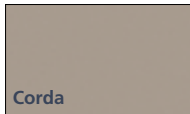

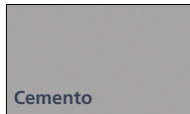

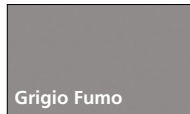

Glass	Thickness	Notes
FLOAT	1,5 cm	
EXTRA LIGHT	1-1,5 cm	
SATIN	1-1,5 cm	Obtained from Extra light

COLOURING

All Arblu colours can be applied as standard on Float, Extra Light and Satin glass.

For the following list of Arblu colours, we recommend using the Extra Light glass top without reflections, for a colour perception without distortion, rather than Float glass, which is characterised by blue-green reflections that tend to alter the perception of the chosen colour.

 Bianco Antico	 Cipria	 Corallo	 Paprika	 Rosso Pompei	 Scarlatto
 Grigio Cenere	 Mosto	 Violetto	 Avorio	 Pergamena	 Tortora
 Cappuccino	 Grigio Light	 Blu Light	 Bianco	 Ghiaccio	 Grigio Azzurro
 Grigio Piombo	 Ghiaia	 Nebbia	 Corda	 Cemento	 Grigio Fumo

CLEANING AND MAINTENANCE

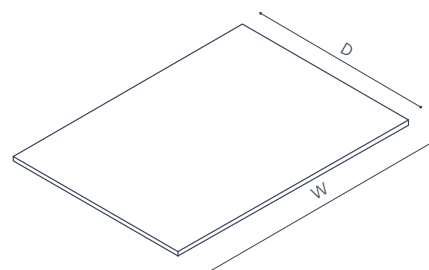

The colour of the glass is archived by applying a coat of paint on the underside of the surface.
The paint is "anti-yellowing" water base single component.
For cleaning use only water and neutral detergents.

Avoid abrasive products and solvents or (even during installation).
If it is necessary the use of descaling products (acid based), please be very careful not to come into contact with the bottom surface of the top (the painted one).

INTEGRATED WASHBASINS FOR CURVED BASIN UNITS TECHNICAL SHEET

› The integrated washbasin can be installed on basin units with drawer $\geq$ H 36 cm

MARBLE TOPS

CHARACTERISTICS

NATURAL STONE

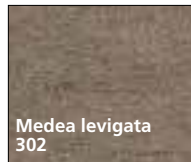

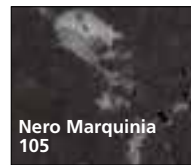

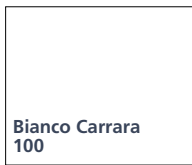

It is composed by natural products suitable to be finished and polished.
Stones tend to absorb the liquid through their tiny pores and then release them slowly as steam.
They are exposed to the risk of absorbing substances that could stain them (perfumes, nail polish...) irreparably.

TECHNICAL STONE

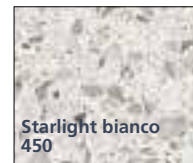

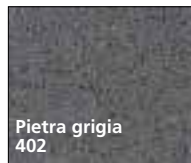

It is a mixture composed by 95% (approximately) of powdered marble or natural quartz and 5% (approximately) of resins and glues.
The vacuum processing creates compaction plates particularly uniform and shock resistant. The Technical quartz, for its intrinsic characteristics, is particularly resistant to chemical agents and thermal shocks.
This is a very hygienic product and it does not attract dust (antistatic).

CLEANING AND MAINTENANCE

A good and constant maintenance preserves brightness over time.
It is easy to clean using a damp cloth and neutral detergent.

Flat top and splashback per linear metre

Characteristics:

- › Flat polished grinding glass on 3 sides
- › Possible top shaping included in the price

MIRRORS

106 Mirrors

150 Spotlights

INTRODUCTION

CHARACTERISTICS

The mirror is an important part of the bathroom, defining its character and style. Available in different shapes, sizes and customisable finishes, our mirrors are made to meet multiple needs, making them true design objects.

Security

All Arblu mirrors are designed and produced to guarantee maximum safety by matching two mirrors, either by gluing the mirror to the panel or by applying the safety film to the panel.

Lighting

Our mirrors are provided with integrated lighting or with backlighting and are completed with spotlights that are already included or can be added on request.

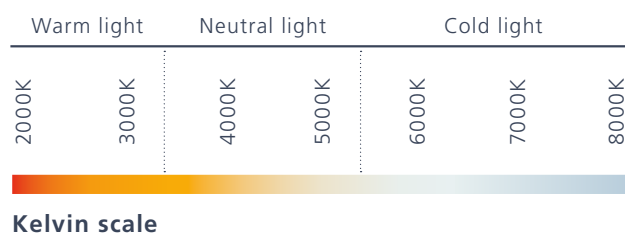

Blu Sensor

Most of our mirrors are provided with "Blu Sensor" touch switch, customised by Arblu directly on the mirror. In addition to switching the light on and off, the "Blu Sensor" can also dim the intensity of the light.

EXAMPLE OF POSITIONING

- ☑ 1 to control the spotlight (2 in case of two spotlights)
- ☑ 1 to control the backlighting

W	Art.	Watt	Price
25	81610	1,5 W	97
35	81611	2,6 W	114
50	81612	4,4 W	151
60	81613	5,5 W	175
70	81614	6,6 W	198
85	81615	8,1 W	233
95	81616	9,2 W	262
105	81617	10,3 W	282
120	81618	12,1 W	321

POWER SUPPLY KIT

Art.	Watt	Price
81620	18 W	63
81621	36 W	97

Example

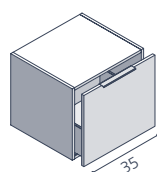

For two storage units W 35 and W 70 you need to choose the interior lighting of the respective lengths.

To choose the correct power supply kit add Watt of the two lengths as follows::

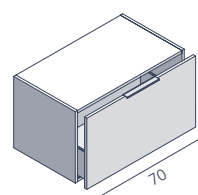

$$2,6 \text{ W} + 6,6 \text{ W} = 9,2 \text{ W}$$

For powers below 18 W choose the 18 W power supply kit, for powers above and up to 36 W choose the 36 W power supply kit.

The lighting is shipped already applied inside the compartment, the transformer separately.

Power for W 35 = 2,6 W

Power for W 70 = 6,6 W

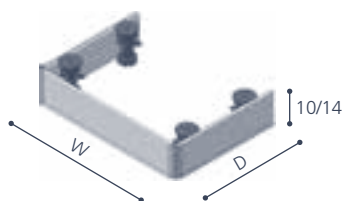

PLINTHS

H 10 / 14 PLINTH WITH ADJUSTABLE FOOT PER LINEAR METER

Art.	Description	Price per lm		
		F1 / F2	F3 / F4	F3 / F4
84200	Plinth per lm	47	74	105

This symbol indicates the feasibility

› To calculate the price, consider the overall development of the plinth.
Example for basin unit W 85 D 50 with two sides, price range A: $0,85 + 0,5 + 0,5 = 1,85 \text{ m} \times 41 \text{ €} = 75,85 \text{ €}$
› Always specify the height

WHEELS

H	Art.	Description	Price
8,5	81520	2 normal wheels + 2 wheels with stops	79
12	81525	4 wheels with stops	160

GENERAL SALES CONDITIONS (GSC)

The following terms and conditions are considered as fully accepted by the Buyer at the time when the order is placed.

1. Acceptance

- a. We accept orders only in a written form. Each order is accepted with "acceptance reservation" by our company, hereafter referred to as Arblu srl.
- b. Orders can also be processed partially. Any contribution to the transport costs will be charged according to the ongoing agreed sales conditions.
- c. We do not dispatch orders below the amount of 100 € net.

2. Cancellations / Changes

- a. Upon receipt of the order, Arblu issues the "Order Confirmation" which can be modified and / or canceled within 1 day of receipt. Subsequently, cancellations and / or variations will not be accepted.

3. Product features and modifications

- a. Arblu srl reserves the right to make suitable changes to products at any time and without prior notice, without compromising their main features.
- b. Light, vapors and other environmental factors can lead to changes in tones and colour that might not guarantee the perfect colour matching for items purchased at different times. Should these differences occur, these cannot be object of dispute.

4. Prices

- a. All prices contained in this pricelist are expressed in Euros. Prices indicated are meant under EXW Fontanafredda, Italy delivery terms, VAT and installation not included. Delivery occurs at the prices indicated in the price list that is valid on the date indicated in the Order Confirmation.
- b. Prices can be changed at any time without prior notice. Any typing errors in prices and / or omissions in this price list do not bind Arblu srl to the Buyer.
- c. In the case the clients have different tax systems from the ones usually applied, Arblu srl needs to receive in written form all the information before sending the Order Confirmation, otherwise all amounts are subject to the usual imposition of laws in force at the time of sale.

5. Delivery

- a. The dates for delivery are not binding and in no case constitute grounds for late payments and / or claim for damages. The supply takes place at the earliest opportunity, subject to stock availability and production capability. The terms of delivery are suspended for fortuitous events and "force majeure" and/or any any unpredictable event outside the control of Arblu srl. The time of delivery will be suspended from the day of the impediment.

6. Transport

- a. Regardless the agreements made on transport costs, and/or payment terms and/or eventual delivery of documents, the passage of transport risks is meant under EXW (Incoterms 2010) delivery terms, with loading the products on means of transport intended for the Buyer. Therefore any complaint must be addressed by the Buyer to the Carrier, even if the transport has been commissioned by Arblu srl. The recipient is namely obliged to check the incoming goods and to notify any possible damage to the Carrier. When the carrier delivers the goods, any damaged packages may be withdrawn by indicating on the delivery NOTES remarks the wording "subject to verification." Within 48 hours the Customer can notify the damage to the Carrier; after this time Arblu srl reserves the right not to acknowledge any compensation for noticed damages and/or breakages.

7. Installation and assembly

- a. Installation of our products must be carried out by professional personnel, by following the instructions delivered together with the products, the relevant technical documentation and according to the laws and regulations governing the implementation of this type of activity. The Buyer assumes all responsibility for faults and / or defects in installation and for any violation of the above provisions. Arblu srl does not take any responsibility for wrong or incorrect installation of the delivered products.

8. Tolerance

- a. All items can have a tolerance of +/-1% compared to the ordered size.

9. Complaints

- a. Any non-conformity, fault or defect shall be reported within 8 (eight) days from delivery, under penalty of revocation. Any non-conformity, fault or defect hidden at the time of receipt of the goods shall be reported within 8 (eight) days from their discovery.

10. Returned goods

- a. No items can be returned without the express authorization of Arblu srl
- b. Authorized returns must be consigned to Arblu srl on DAP delivery terms basis, they will be in any case charged by 20% costs as well as any repair costs for any possible damage caused by negligence of the Customer.
- c. The goods immediately identified as damaged and replaced by the supplier have to be returned within 30 days from their replacement. Beyond that date Arblu srl will be forced to issue an invoice for the replaced goods at current price list.

11. Warranty

- a. The products will be suitable for the use they are normally intended for and will be guaranteed by non-conformity and defects in material and workmanship. In any case, measurements, tints, colors, illustrations and drawings on catalogues and/or samples will be merely indicative. The warranty only covers the replacement of products and parts which we acknowledge as being defective. The normal degradation and wear of the products, as well as any defect or lack of quality due or influenced by incorrect storage, are excluded from the warranty and liability of Arblu srl. The warranty does not cover damage to products that have been tampered with by the Buyer and / or third parts, installed and / or used not in accordance with the operating conditions supplied with the product. Under no circumstances a warranty intervention will take place once elapsed 24 months from delivery date.

12. Payments and overdue interests

- a. The payment deadline will be strictly observed, the possible acceptance of credit by Arblu srl is always subject to collection, without any renewal of the relationship and without modification of the competent Court. If payment is not done at the foreseen date, Arblu srl will apply the interests established by Italian Legislation in compliance with European Directives 2000/35/CE and 2011/7/UE and without prejudice to the right of Arblu srl to declare the contract terminated and request compensation for damages. Arblu srl will have the right to suspend any delivery, without prior notice, making void the ongoing order for the part not yet delivered due to the fault of the Buyer. In no event will the Buyer be allowed to suspend or delay payments, even in the event of dispute, complaint or controversy.
- b. In the event of termination of the contract or cancellation or withdrawal of the Buyer, Arblu may withhold any deposit fees collected as penalty as a partial compensation of contractual obligations not complied with by the Buyer, except a greater damage caused.

13. Cautions

- a. Arblu srl may suspend deliveries in case the worsened economic conditions of the Buyer may compromise the payment and there is a danger of not obtaining payment: in the case of deferred payments, failure to timely comply with the deadlines established legitimate Arblu srl to demand immediate payment of the entire remaining price.

14. Retention of title

- a. The sale is made subject to property (Article 1523 et seq CC), so the products remain the property of Arblu srl until full payment of the price.
- b. Payments are not recognized if made to agents, representatives, producers and salesmen without the written permission from Arblu srl.
- c. The goods will become property of the Buyer only after their regular, full payment. The Buyer has no right to sell, pledge, guarantee, lease, otherwise the goods to a third person before this deadline. In case of failure and / or delayed payment, Arblu srl reserves the right to recover the goods.
- d. In the event that the Buyer has sold the products before their full payment, Arblu srl will automatically have the right to subrogation to the Buyer's rights to the third buyer and any proceeds from the sale will be held by the Buyer in the name and account of Arblu srl, the latter being readily transmitted. In any case the risks arising from loss or damage for any cause suffered by the products will be borne by the Buyer.

15. Use of trademarks and images

- a. any kind and form of use of trademarks and names of Arblu srl property, as well as links, images, photos and files must be authorized in advance in written form by Arblu srl.

16. Applicable Law and Jurisdiction

- a. These terms and conditions are governed by the Italian Law and the Court of Pordenone (Italy) has competence for any controversy. Arblu srl will have the right to refer, at its discretion, to the competent Court where the Buyer is located.

17. Validity

- a. This price list comes into effect starting from 15th February 2025.
