Company

For **almost 30 years**, Arblu has been **designing, producing** and retailing **Made in Italy** solutions for bathroom, paying attention to quality, design, research, innovation and contemporary trends in furnishing and wellness. The product range includes shower enclosures, shower trays, furniture, decorative radiators for a **complete and coordinated bathroom furnishing**.

Building quality of life

We take care of people's wellbeing, making the home a place to enjoy wonderful experiences and pleasure for the senses.

Our focus is on creating the **most advanced solutions** to meet the need to create precious moments for oneself, of relaxation and joy, in the comfort of one's own home that becomes a true oasis of **well-being**.

Thanks to innovation, attention to detail and service of our team of unique people, we build rooms in which to enjoy intensely, always aiming at **sustainability, for people and the environment**.

Mission

We create with **attention to detail, innovation** and vision, delivering a **product of design, functional** and sustainable for the community and the environment.

We work to make the product pleasant, natural and easy to use for those who sell it, those who install it and those who will experience it. We strive to **create value** with the passion and pride of our unique group of people.

Code of ethics

Arblu has adopted a code of ethics, the organisational, management and control model pursuant to **Legislative Decree 231/01**, whose rules of conduct are inspired by principles and values affirmed not only in official company documents but also in the management ethics that have characterised its development in over 30 years of activity.

Quality and certifications

The entire range of Arblu shower cabins is certified according to the European regulation **UNI EN 14428:2018**.

Particular attention is paid to:

- cleanability
- durability
- impact resistance
- security in case of breakages

A careful planning with multiple validation phases, a meticulous quality control of the materials and a perfect construction guarantee durability and cleanability.

Our tests include, for example, the verification of the correct water tightness, the control after 50.000 cycles of opening / closing of the wear of moving parts, and tests of resistance to chemical agents typically used for the every day cleaning.

The impact resistance and safety in case of breakage are guaranteed by accurate internal tests and careful checks by our selected suppliers.

The company has the "Declaration of Performance", you can find it on our website www.arblu.com.

Certification ISO 9001 and ISO 45001

Arblu, with the aim of improving the efficiency of its structure, while respecting the safety of its employees in the workplace, has received ISO 9001 **"Quality Management Systems"** and ISO 45001 **"Management Systems for the Protection of Safety in the Workplace"** certification.

The certifying body for the integrated system is Bureau Veritas, a world leader in inspection, verification and certification services for Quality, Health and Safety in companies.

ISO 9001 n° IT335352

ISO 45001 n° IT335349

Sustainability, a concrete value

The **eco-sustainable approach** by companies today cannot be just a trend or a slogan but must be a conscious choice and implemented at every stage of product life, from its conception to its production, delivery and use. Arblu was one of the first companies in the bathroom sector to commit to this. We design with attention to detail, innovation and vision, delivering a design, functional and **sustainable product for the community and the environment**.

EPD, environmental certification

Arblu is one of the first companies in the world in the bathroom sector to have adopted the **Environmental Product Declaration (EPD)**, a voluntary certification that provides environmental data through **Life Cycle Assessment (LCA) of the product**.

Certified and durable materials

From **selected and certified suppliers, we receive first-rate materials**, such as tempered glass on which we perform laboratory tests of fragmentation and resistance, which we carry out in a **higher number than required by regulations** to ensure a **long product life**.

Product recyclability

Our shower enclosures are made with sustainable features and **recyclable materials**, such as glass and aluminium, making them **almost totally recyclable and reusable**. In addition, we design the product so that **final disassembly is possible and easy to facilitate recyclability**.

Sustainability Manifesto

On the occasion of the **Festival of the Green Economy**, Arblu joined the **Manifesto of Green Businesses** to achieve a series of goals in the coming years that are consistent with the European commitment **to zero CO² emissions by 2050** and to implement policies aimed at creating value for the community and the environment.

Green energy in the company

Clean energy is another area of Arblu's commitment. The **photovoltaic system** on our company premises can produce energy **to cover 100% of our energy needs** and in surplus, to be more eco-friendly and reduce unsustainable energy consumption.

Glass finishing

The glass panels that are inserted into the shower enclosures, varying in thickness according to the chosen model, **are guaranteed for safety as they are tempered by** the latest machinery that makes them exceptionally resistant to breaking, knocks and bending, in accordance with international safety standards **UNI EN 12150-1** and **UNI EN 14428**. Also the sheets in crilex have the safety guarantee since they are conform to the crash test according the norm **UNI EN 14428**.

TIMELESS

Shower Glass protection treatment

SPECIAL GLASS

Shower Glass protection treatment surcharge treatment done during the production phase

High durability

Timeless is obtained through the application, directly in the production phase of the glass sheets, of a magnetron deposition according to an industrial process controlled in a vacuum environment.

This treatment lasts over time, without losing its effectiveness.

Watch the video

**DURATION
AT LEAST
10 YEARS**

High transparency and neutral aspect

Timeless is made of a very transparent glass and does not alter the colour vision regardless of the glass thickness.

Anti-corrosion effect for a more durable transparency

Day after day the glass is protected from corrosion, does not become opaque and retains all its beauty as the water flows quickly leaving few limestone deposits.

Anti-condensation

The condensation evaporates faster than the untreated glass, so the glass recovers its transparency very quickly.

Easy to clean

Water slips on the glass surface, limiting limestone deposits and marks.

After taking a shower, the glass Squeegee slips on the glass removing the last remaining water. Any residual marks clean off more easily than on non-treated glass.

The glass can be cleaned with a soft cloth and water or with a glass wiper. It is advisable to use common detergent products. Do not use products containing abrasive powders or abrasive tools.

DEPOSITS AND STAINS

Timeless glass

Not treated glass

CONDENSATION

Timeless glass

Not treated glass

SGP

Glass water repellent treatment

SHOWER GLASS PROTECT

Shower glass protection treatment applied in our warehouse

The glass of our shower enclosures, which are treated with this product, remain transparent and shiny over time. It makes the area extremely smooth, creating an "water repellent effect" effect: moisture, limescale deposits and soap residues do not adhere to the surfaces.

Watch the video

**DURATION
AT LEAST
5 YEARS**

Easy to clean

The water slides over the surface of the glass, reducing limescale deposits and stains.

MORE CARE ANTI-LIMESCALE SANITISER

More Care is the anti-limescale sanitiser that, **when used on SGP-treated glass, greatly prolongs the effectiveness of the anti-limescale treatment over time, by at least 3 years.**

In addition, More Care is also excellent for the aluminium of shower enclosures, chrome and ceramic parts of sanitary ware. The special formulation keeps Pietrablu shower trays as good as new. A gentle and efficient solution that does not damage even the most delicate materials.

**EXTENDED
DURATION AT
LEAST 3 YEARS**

899 17005	More Care" limescale sanitiser - 500 ml	35

KIT

Glass water repellent treatment

KIT EASY TO CLEAN

Do it yourself shower glass treatment

It is a glass protection treatment surcharge treatment to be used when the shower enclosure is already installed and guarantees the same result as an application made by Arblu.

A kit contains: Easy to clean, microfibre cloth and instruction sheet. Approximately 8 sqm of glass surface can be treated with one kit.

**DURATION
AT LEAST
2 YEARS**

Art.	Description	PRICES
899 17015	Kit treatment "Easy to clean" - 100 ml	104

GSS

Splinter protection film

GLASS SAFETY SYSTEM TRANSPARENT PROTECTION FILM

As per the UNI EN 14428: 2018 standard, the glass of a shower enclosure must be tempered, therefore with defined fragmentation standards: when it breaks, it forms splinters so small that they are not dangerous for people.

To avoid splinters falling to the ground in case of glass breakage, it is recommended to add the GSS protection film that, with a thickness of 100 microns and applied to the tempered glass, blocks the dispersion of fragments. It is highly transparent, resistant to scratches, abrasion and heat.

- › The film is applied to the outside of the transparent glass
- › It can be applied on glass with Timeless or SGP treatment
- › It can be applied on glass with a maximum width of 180 cm

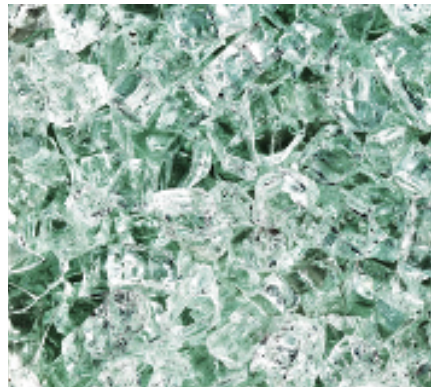

Easy to clean

The glass can be cleaned with a soft cloth and water or with the squeegee, taking care to remove any dust. Common cleaning products are suitable. Do not use those containing abrasive powders or abrasive tools.

Information on water tightness

To define the water-tightness, the meeting points between the surfaces and construction elements are taken into consideration. The sealing between the wall, shower tray and shower box will be guaranteed by the assembly in accordance with best practice performed by your installer according to the installation instructions, while between the glass and the profiles of your shower box the water-tightness is already assured in the production phase with continuous sealing and sealing profiles. On the other hand the watertightness on the threshold depends on the different constructive solutions.

OUT OF SQUARE DATA SHEET:

Separé Elite does not provide for the use of compensation so, in the presence of out-of-square walls, a survey of the measurements must be made as specified in the diagram below:

$\alpha < 90$	$\alpha > 90$
$L1 =$ $X =$ $H =$	$L =$ $X =$ $H =$

› In case of out-of-square glass, a **surcharge** will be applied (see table OUTSIZE)

SPECIAL SOLUTIONS

STT

shaped fixed glass

A180**H. 210 cm****TH. glass 8 mm****GENERAL CHARACTERISTICS:**

- › Extensibility and adjustment out of square until 1 cm
- › Hinge with lifting mechanism and 180° opening (internal/external) and flat glass inside the box
- › Under door waterproof system with aluminium profile
- › Under door waterproof system with "Crystalline sealant Arblu"
- › Magnetic closure inside the aluminium profile
- › Sliding system composed by double adjustable spherical wheels

- › Sliding door with "Automatic Door Close System" in closing (Patented)
- › Removable sliding door system for an easy cleaning
- › Removable cover on sliding door system for an easy regulation and maintenance

Special installation

- › The model is suitable for installation on tiles change; for more details contact Arblu

GENERAL CHARACTERISTICS:

- › Extensibility and adjustment for out of square walls up to 2,5 cm
- › Hinge with lifting mechanism and flat glass inside the cabin
- › Under door waterproof system with aluminium profile
- › Under door waterproof system with "Crystalline sealant Arblu"
- › Magnetic closure inside the aluminium profile
- › Sliding system composed by double adjustable spherical wheels

- › Sliding door with "Soft Close System" in opening and closing
- › Removable sliding door system for an easy cleaning
- › Removable cover on sliding door system for an easy regulation and maintenance

Special installation

- › The model is suitable for installation on tiles change; for more details contact Arblu

STT

shaped fixed glass

Sei

H. 195 cm
TH. glass 6 mm

GENERAL CHARACTERISTICS:

- › Extensibility and adjustment for out of square walls up to 2 cm
- › Hinge with lifting mechanism and flush glass inside the shower cabin and opening to 180°
- › Magnetic closure inside the aluminium profile
- › Under door waterproof system with aluminium profile
- › Under fixed side waterproof system with "Crystalline sealant Arblu"

Special installation

- › The model is suitable for installation on tiles change; for more details contact Arblu

GENERAL CHARACTERISTICS:

- › Glass compensation system directly on profile for fixed glass
- › Extensibility and adjustment for out of square walls up to 1 cm
- › Magnetic closure on aluminium profile (excluded for niche 1 sliding door)
- › Supplied with 1 black hook, free positioning along the profile

- › **For wing/saloon and folding door:**
- › Lift-up cam hinge
- › 180° opening and 90° positioning
- › "Ghost" concealed magnetic closing system
- › Upper quick-release system of folding door

For sliding door:

- › Sliding on carts with double ball wheel, easily adjustable and with mechanical fixing
- › Removable sliding door system for an easy cleaning

GENERAL CHARACTERISTICS:

- › Glass system compensation directly on the profile and on the cover
- › Extensibility and adjustment for out of square walls up to 2 cm
- › Magnetic closure inside the aluminium profile (excluded for corner 1 sliding door)

For Wing door/saloon:

- › Lift-up cam hinge
- › 180° opening and 90° positioning
- › "Ghost" concealed magnetic closing system

For sliding door:

- › Sliding on carts with double ball wheel, easily adjustable and with mechanical fixing
- › Removable sliding door system for an easy cleaning

GENERAL CHARACTERISTICS:

- › Extensibility and adjustment for out of square walls up to 2,5 cm
- › Post profile and compensation set installed with vertical gaskets
- › Water sealing system under the door with aluminum profile
- › Under door waterproof system with "Crystalline sealant Arblu"
- › Magnetic closure on PVC profile
- › Sliding on spherical wheels, adjustable
- › Removable sliding door system for an easy cleaning

Special installations

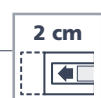

- › The model is suitable for installation on tiles change; for more details contact Arblu

› For the niche 2 open shelf units always specify if horizontal or vertical installation

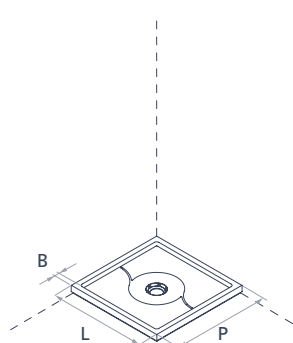

Measurements survey

- › The assembly of the shower cabin must be performed by qualified personnel.
- › Verify the compatibility of the rawlplugs given with the type of wall. Arblu provides rawlplugs for masonry walls.
- › We recommend to passing the orders using our "order form" or "order form additional side" (see following pages).

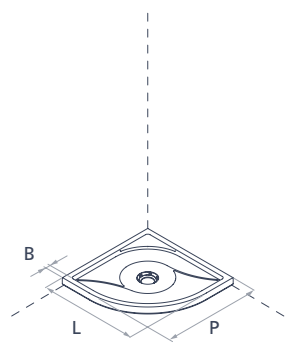

- 1) Take the measurements after installation of the shower tray and wall coverings.
- 2) Verify the planarity and the flat level of the shower tray and the walls (see drawing).
- 3) Mind the obstacles along the walls (e.g. borders) where the profiles of the shower cabin have to be fixed
- 4) If you are not able to follow the above-mentioned requirements, please contact Arblu; otherwise the company will not take any responsibility for bad functioning of the shower cabin or possible water leaks

General sales conditions (GSC)

The following terms and conditions are considered as fully accepted by the Buyer at the time when the order is placed.

1. Acceptance

- a. We accept orders only in a written form. Each order is accepted with "acceptance reservation" by our company, hereafter referred to as Arblu srl.
- b. Orders can also be processed partially. Any contribution to the transport costs will be charged according to the ongoing agreed sales conditions.
- c. We do not dispatch orders below the amount of 100 € net.

2. Cancellations / Changes

- a. Upon receipt of the order, Arblu issues the "Order Confirmation" which can be modified and / or canceled within 1 day of receipt. Subsequently, cancellations and / or variations will not be accepted.

3. Product features and modifications

- a. Arblu srl reserves the right to make suitable changes to products at any time and without prior notice, without compromising their main features.
- b. Light, vapors and other environmental factors can lead to changes in tones and colour that might not guarantee the perfect colour matching for items purchased at different times. Should these differences occur, these cannot be object of dispute.

4. Prices

- a. All prices contained in this pricelist are expressed in Euros. Prices indicated are meant under EXW Fontanafredda, Italy delivery terms, VAT and installation not included. Delivery occurs at the prices indicated in the price list that is valid on the date indicated in the Order Confirmation.
- b. Prices can be changed at any time without prior notice. Any typing errors in prices and / or omissions in this price list do not bind Arblu srl to the Buyer.
- c. In the case the clients have different tax systems from the ones usually applied, Arblu srl needs to receive in written form all the information before sending the Order Confirmation, otherwise all amounts are subject to the usual imposition of laws in force at the time of sale.

5. Delivery

- a. The dates for delivery are not binding and in no case constitute grounds for late payments and / or claim for damages. The supply takes place at the earliest opportunity, subject to stock availability and production capability. The terms of delivery are suspended for fortuitous events and "force majeure" and/or any unpredictable event outside the control of Arblu srl. The time of delivery will be suspended from the day of the impediment.

6. Transport

- a. Regardless the agreements made on transport costs, and/or payment terms and/or eventual delivery of documents, the passage of transport risks is meant under EXW (Incoterms 2010) delivery terms, with loading the products on means of transport intended for the Buyer. Therefore any complaint must be addressed by the Buyer to the Carrier, even if the transport has been commissioned by Arblu srl. The recipient is namely obliged to check the incoming goods and to notify any possible damage to the Carrier. When the carrier delivers the goods, any damaged packages may be withdrawn by indicating on the delivery NOTES remarks the wording "subject to verification." Within 48 hours the Customer can notify the damage to the Carrier; after this time Arblu srl reserves the right not to acknowledge any compensation for noticed damages and/or breakages.

7. Installation and assembly

- a. Installation of our products must be carried out by professional personnel, by following the instructions delivered together with the products, the relevant technical documentation and according to the laws and regulations governing the implementation of this type of activity. The Buyer assumes all responsibility for faults and / or defects in installation and for any violation of the above provisions. Arblu srl does not take any responsibility for wrong or incorrect installation of the delivered products.

8. Tolerance

- a. All items can have a tolerance of +/-1% compared to the ordered size.

9. Complaints

- a. Any non-conformity, fault or defect shall be reported within 8 (eight) days from delivery, under penalty of revocation. Any non-conformity, fault or defect hidden at the time of receipt of the goods shall be reported within 8 (eight) days from their discovery.

10. Returned goods

- a. No items can be returned without the express authorization of Arblu srl
- b. Authorized returns must be consigned to Arblu srl on DAP delivery terms basis, they will be in any case charged by 20% costs as well as any repair costs for any possible damage caused by negligence of the Customer.
- c. The goods immediately identified as damaged and replaced by the supplier have to be returned within 30 days from their replacement. Beyond that

date Arblu srl will be forced to issue an invoice for the replaced goods at current price list.

11. Warranty

- a. The products will be suitable for the use they are normally intended for and will be guaranteed by non-conformity and defects in material and workmanship. In any case, measurements, tints, colors, illustrations and drawings on catalogues and/or samples will be merely indicative. The warranty only covers the replacement of products and parts which we acknowledge as being defective. The normal degradation and wear of the products, as well as any defect or lack of quality due or influenced by incorrect storage, are excluded from the warranty and liability of Arblu srl. The warranty does not cover damage to products that have been tampered with by the Buyer and / or third parts, installed and / or used not in accordance with the operating conditions supplied with the product. Under no circumstances a warranty intervention will take place once elapsed 24 months from delivery date.

12. Payments and overdue interests

- a. The payment deadline will be strictly observed, the possible acceptance of credit by Arblu srl is always subject to collection, without any renewal of the relationship and without modification of the competent Court. If payment is not done at the foreseen date, Arblu srl will apply the interests established by Italian Legislation in compliance with European Directives 2000/35/CE and 2011/7/UE and without prejudice to the right of Arblu srl to declare the contract terminated and request compensation for damages. Arblu srl will have the right to suspend any delivery, without prior notice, making void the ongoing order for the part not yet delivered due to the fault of the Buyer. In no event will the Buyer be allowed to suspend or delay payments, even in the event of dispute, complaint or controversy.
- b. In the event of termination of the contract or cancellation or withdrawal of the Buyer, Arblu may withhold any deposit fees collected as penalty as a partial compensation of contractual obligations not complied with by the Buyer, except a greater damage caused.

13. Cautions

- a. Arblu srl may suspend deliveries in case the worsened economic conditions of the Buyer may compromise the payment and there is a danger of not obtaining payment: in the case of deferred payments, failure to timely comply with the deadlines established legitimate Arblu srl to demand immediate payment of the entire remaining price.

14. Retention of title

- a. The sale is made subject to property (Article 1523 et seq CC), so the products remain the property of Arblu srl until full payment of the price.
- b. Payments are not recognized if made to agents, representatives, producers and salesmen without the written permission from Arblu srl.
- c. The goods will become property of the Buyer only after their regular, full payment. The Buyer has no right to sell, pledge, guarantee, lease, otherwise the goods to a third person before this deadline. In case of failure and / or delayed payment, Arblu srl reserves the right to recover the goods.
- d. In the event that the Buyer has sold the products before their full payment, Arblu srl will automatically have the right to subrogation to the Buyer's rights to the third buyer and any proceeds from the sale will be held by the Buyer in the name and account of Arblu srl, the latter being readily transmitted. In any case the risks arising from loss or damage for any cause suffered by the products will be borne by the Buyer.

15. Use of trademarks and images

- a. any kind and form of use of trademarks and names of Arblu srl property, as well as links, images, photos and files must be authorized in advance in written form by Arblu srl.

16. Applicable Law and Jurisdiction

- a. These terms and conditions are governed by the Italian Law and the Court of Pordenone (Italy) has competence for any controversy. Arblu srl will have the right to refer, at its discretion, to the competent Court where the Buyer is located.

17. **Validity.** This price list comes into effect starting from November 1st, 2025.
