

hansgrohe

A woman with blonde hair tied back is leaning over a white sink, smiling and splashing water from a modern, curved brass faucet. The water is captured mid-air, creating a dynamic spray. The background is softly blurred, showing a window with blue light and some steam or mist. The overall mood is joyful and refreshing.

Life is
waterful.

Dream bathrooms that inspire

hansgrohe.com

Life is waterful.

Day after day, we pour all our passion and precision into creating unrivalled water experiences that meet standards and generate genuine enthusiasm. When it has a holistic concept applied to every area, the bathroom becomes a place that can enrich lives and fill them with emotions and extraordinary moments. It's a place to feel special, every single day. Where people are free to express their individuality and enjoy the beauty of water with all their senses.

Tradition and innovation

Bubbling with ideas since 1901

Hansgrohe SE is celebrating its 125th birthday in 2026. We have always pushed the limits of the technically feasible and rethought bathrooms – based on the needs and requirements of our customers and specialist partners.

hansgrohe has been one of the pioneers and innovation leaders in the sanitation industry since day one. We are constantly pushing the limits of the technically feasible and, in so doing, revolutionising mixers, showers and bathrooms. Not only do we optimise designs and materials, but we also constantly rethink functionality by continuously addressing our customers' needs. Sensual spray modes such as PowderRain or pioneering installation solutions such as the iBox universal 2 are good examples of this. Our inventions encourage people to enjoy the beauty of water.

125
YEAR
ANNIVERSARY

Company founder Hans Grohe's pioneering spirit is deeply rooted in our DNA and shapes the work we do.

PHOENIX and hansgrohe

Partners in good taste

reddot winner 2025
best of the best

Stuttgart-based PHOENIX's success is backed up by more than 800 renowned design awards to date.

PHOENIX is considered one of the leading independent studios for product and interface design worldwide. The legendary Stuttgart-based design workshop is an integral component of German design history and has been causing a stir since as far back as the 1970s. PHOENIX has spent just as long shaping the face of hansgrohe, as it has been exclusively designing all the key products for our premium brand since its foundation.

The pioneers design objects that last a long time and bring lots of joy. They develop a portfolio for hansgrohe that creates totally new water experiences and always succeeds in striking the balance between functionality and magic. Together, PHOENIX and hansgrohe use modern, clean lines and add emotion to increase the desirability of bathroom design.

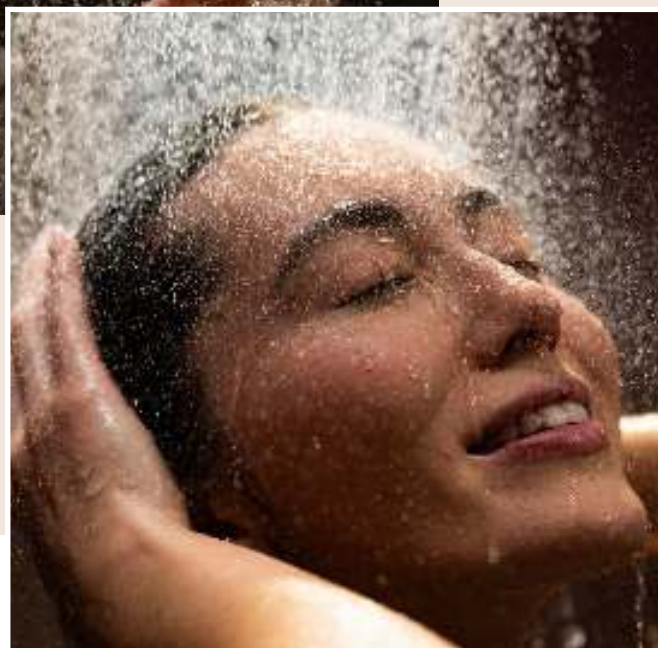

Where water droplets become wellness

The hansgrohe spray laboratory

This is where the precious element of water is shaped into a personal wellness medium. After all, not all droplets are created equally. Micro-fine, lightly massaging or intense, our experts in the spray laboratory have developed a wide range of spray modes – the ones that have made hansgrohe showers so famous. They also research the splashback properties of water to ensure it feels nice on the skin and prevents puddles forming on ceramics. And in the sound laboratory, our experts fine-tune the sound of water-bearing products to perfection to ensure non-stop acoustic enjoyment.

Beautiful spray patterns are no coincidence at hansgrohe. They're the result of in-depth spray research in countless test cycles.

Each hansgrohe product needs to prove its worth over and over in test cycles, stress tests and quality assurance inspections. We always involve our consumers and specialist partners in the testing of our prototypes to ensure the products are safe, durable and top quality in daily use. The flexible silicone nozzles pictured above have been developed to prevent limescale from sticking to them. That's what we call smart thinking.

hansgrohe product quality

Uncompromisingly high-end

hansgrohe products meet the strictest drinking water regulations and hold all the major approvals. They are built to last. After all, genuine quality stands the test of time. Our customers can rely on the highest quality with regard to materials, design and functionality. As good bathroom design remains timeless, we make our products to be visually durable and ideal for mixing and matching – with a clear design aesthetic that goes with a wide range of interior styles.

Our sustainability strategy

Less water, pure joy

“We are converting our entire water-bearing product range to water- and energy-saving technologies by 2030 – both for the AXOR and hansgrohe brands.”

“Water is the elixir of life,” as Klaus Grohe, son of our founder and former Chairman of the Executive Board, used to say. “The social interest in clean water and its availability to everyone is thus also our own.”

At Hansgrohe, we walk the talk: for example with the insights from our bathroom analysis. As a result, we are converting our entire range of mixers and showers to ECO design specifications by 2030. This means our products will then only be available with water- and energy-saving technologies. We intend to consistently implement this plan over the coming years.

The Hansgrohe Group defines “ECO” as the reduction of the water and/or energy consumption of water-bearing products in usage by at least 22 percent compared to 2020 (the base year).*

Hans Jürgen Kalmbach, Chairman of the Executive Board of the Hansgrohe Group

*The benchmark for this is the average flow per minute based on our entire product range. We intend to reduce this flow rate by at least 22 percent compared to the base year (2020) by 2030. The reduced water consumption also results in lower energy consumption when heating the water.

Calculate the potential savings now!

hansgrohe water savings calculator

So much can be saved with clever technologies!

Thanks to EcoSmart technology, many hansgrohe mixers and showers already conserve water and energy and save actual money, while CoolStart mixers reduce the valuable energy used to heat water. EcoSmart* and CoolStart** products enable people to be more sustainable in every bathroom and in every project – especially as they are no more expensive than standard products. The savings can soon mount up, especially in hotels and other major projects.

EcoSmart

CoolStart

Find out more about EcoSmart.

Find out more about CoolStart.

*EcoSmart products work with flow limitation – without a noticeable loss of comfort. hansgrohe showers with EcoSmart therefore use up to 40% less water than our showers without this technology. With EcoSmart+, it's as much as 60%. EcoSmart showers therefore consume only 8 l/min – or just 6 l/min or less with EcoSmart+. EcoSmart also reduces water consumption to around 5 l/min in hansgrohe basin mixers, while EcoSmart+ mixers consume as little as 4 l/min (each at 3 bar).

**Energy-saving CoolStart mixers only allow hot water to flow when the lever is actively moved.

Service quality

Top-notch every time

“Here at hansgrohe, we think in terms of solutions, even when it comes to service, and have one aim: to make customers fans of our brand. We therefore offer them quick and comprehensive service across all channels.”

Danny Stahl, Head of Professional Service & Support at the Hansgrohe Group

Whether in our Aquademie, the Water Studios, over the phone or at trade fairs and events, we are always approachable. Our team of experts at the Technical Service Center is happy to provide customers with information and advice on all issues and questions. From tradespeople and retailers to planners and architects, our specialist partners can access our expertise via many channels – through our online support services and in training courses. Our business customers also often hand us ‘Best of’ awards, for example for our PRO Video Service, which enables us to provide help live at the building site.

hansgrohe offers a voluntary manufacturer’s guarantee of five years on showers and mixers and 20 years on ceramics. Spare parts can be purchased from us online, and we will guarantee 15 years of availability of these parts.

Find out more about the
manufacturer's guarantee.

Dream bathrooms

For incomparable water experiences, we at hansgrohe don't think in terms of just the products – we transform individual elements into holistic bathroom experiences. We offer mixers, showers and accessories, as well as furniture, ceramics, mirrors and shower toilets. This creates perfectly coordinated, interactive environments for individual tastes. Use our interior design examples for inspiration. And enjoy the many benefits of purchasing everything from one supplier.

From the idea to the finished bathroom

Start bathroom planning now.

Plan online with the 3D bathroom planner

What does your dream interior look like? Use our bathroom planner to design the bathroom of your dreams in 3D. Create an oasis that fully reflects your taste by choosing from a range of styles, materials and colours.

1 Choose a style and floor plan

Natural or modern? Soft tones or bold contrasts? Which size works best with your bathroom? You decide!

2 Get creative

Test out various hansgrohe mixers, showers, furniture and accessories to make your personal choice.

3 Save the results

Save your choices as a PDF and find a local specialist partner to install it all. Alternatively, save the code to continue at any time.

Design lover dreaming of a new refuge?

Create an accessible space for sensational experiences with water and the very best in comfort. A place to fall in love.

Love modern design at a great price?

Use clean lines and a fresh design to create an expressive feel-good zone. Perfect for small, compact spaces.

For bathrooms with personality

Six finishes, endless options

FinishPlus colours create unique accents in the shower, at the washplace and in the toilet area. A bronze-coloured shower system is a design highlight, a Matt White mixer is a fresh-faced head-turner. hansgrohe thermostats and showers can be Matt Black or gold-coloured. If the colour of the wallbar, shower hose and accessories matches, it adds style to the whole bathroom – and makes it look new.

Matt Black (-670)

provides a contrast and takes the bathroom design back to basics.

Matt White (-700)

is versatile and creates unconventional freshness.

Polished Gold Optic (-990)

enchants lovers of extravagant design and brings glamour to the bathroom.

Brushed Bronze (-140)

exudes subtle flair and looks elegant with white and natural tones.

Chrome (-000)

is a timeless classic that makes the bathroom shine.

Brushed Black Chrome (-340)

has an air of sophistication thanks to its dark appearance.

Step-by-step guide to make a dream shower come true

1

Define the design style and plan the shower area

Define the style for the chosen products, i.e. modern or classic. We recommend ensuring the mixers in the shower look like the ones at the washplace, on the bath tub and by the toilet/on the bidet. Matt Black or Polished Gold Optic? You are completely free to choose the design. You can also pick the perfect place for your dream shower in the bathroom.

> Page 22

2

Choose the installation type and product combination

- Do you want a large rain shower, the ability to control your shower experience using a minimalist design element, and the option for the technology to disappear out of sight? Check out our concealed installation models.
- Do you want to have two showers with a thermostat installed quickly and easily? Then go for our all-in-one exposed installation solution: the Showerpipe.
- Shower sets consisting of a hand shower, wallbar and shower hose plus exposed installation mixer or thermostat are also quick to install.
- With a shower set, you can choose a matching combination of hand shower, hose and bar.

> Page 46

3

Find the right shower head(s)

Round (S), Square (E), softsquare (Q): hansgrohe offers many shapes, sizes and colours for the dream shower. Hand shower, body spray, children's shower, dog shower? We've got them all. An XXL overhead shower for all-round pampering and indulgent showering? That, too. FinishPlus designs in Matt White or Brushed Bronze are sure to add unique accents.

> Page 30

4

Choose the right shower control

Do you want to be the conductor of your new and indulgent shower? With an intuitive way to turn it on and off at the touch of a button and gently control it with dials? With a shower mixer or safe comfort thermostat and integrated shelf? Choose your favourite options. A tip for pairing products: go for products with the same colour and design in all areas of the bathroom.

> Page 78

5

Find a shower drain channel

RainDrain is the magic word for powerful drainage technology in the shower. With shower drain channels and floor drains featuring excellent designs in different sizes and surface finishes, seamless design is definitely an option for your new spa temple.

> Page 50

6

Add shower accessories and other extras

Our extras blend in perfectly with your style world, while also creating more storage space. Shower toiletries can be placed in a recessed wall niche or on a corner soap dish. From bronze-coloured shower hoses to matt-white shower holders to secure grab bars, hansgrohe accessories complete your dream bathroom.

> Page 216

XXL overhead shower can be tilted between 10° and 30°

Rainfinity shelf with integrated hose connection and hand shower holder – for showers with a state-of-the-art design.

Glorious relaxation with PowderRain: the shoulder shower with integrated shelf takes showering comfort to the next level.

Rainfinity

The ultimate in showering indulgence

Rainfinity pampers with microfine PowderRain, microfine droplets that do the body, mind and soul the world of good. Design fans appreciate the elegant shapes, integrated shelves and appealing colours. Rainfinity creates exciting pops of colour in the bathroom.

Design highlight: Rainfinity overhead shower with PowderRain

The Rainfinity 360, our most lavish overhead shower, looks magnificent and does the world of good. Its concave spray disc wraps the entire body in a cocoon of thousands of microfine droplets.

Next level: the Rainfinity Showerpipe

This Showerpipe combines two PowderRain shower heads and other premium components into one product. The convenient all-in-one shower system consists of a Rainfinity overhead and hand shower and a ShowerTablet thermostat with shelf – all in Matt White. The whole system is attached to existing connections, so each water source does not need to be installed separately.

A woman with dark hair is shown from the chest up, standing under a large, square, rainfall-style showerhead. She has her eyes closed and a serene expression, enjoying the water. She is holding a small, light-colored, knotted towel against her shoulder. The shower is set against a wall of light-colored square tiles. A handheld showerhead is visible on the wall to the left, and a green plant is partially visible on the right.

**"I love the feeling
of showering with
Raindance Alive."**

That's what 9 out of 10 shower testers told us in the Smart Insights consumer research with 100 participants in July/August 2024.

Raindance Alive

Striking a chord with our senses

reddot winner 2025
best of the best

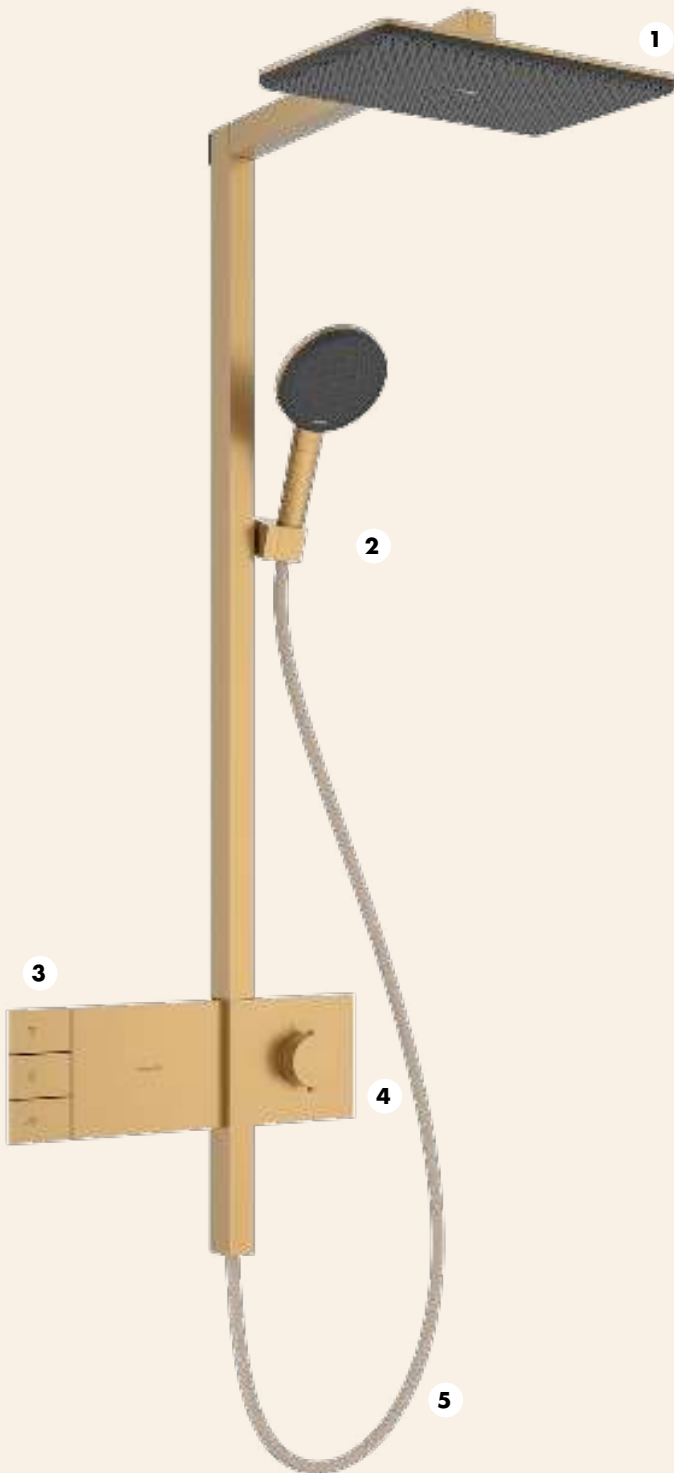

Feel relaxation and well-being as water droplets flow over the body, caressing the skin. It's like a favourite song – intensely felt, indescribable. Some call it happiness; others dance with closed eyes and dream. Raindance Alive – the innovation of enthusiasm.

The innovative shower system's thermostat design is so minimalist and sleek that it protrudes by just 36 mm without or 40 mm with the handle. The warm, fabric-like shower hose enhances the cosy look and feel. Finish: Brushed Bronze.

Raindance Alive exposed installation Showerpipe

Doesn't it look like a concealed installation? Our latest design highlight lies extremely flat against the wall for a minimalist look and maximum freedom of movement.

1 Large design overhead shower with the RainAir and PowderRain spray modes

The anodised aluminium cover gives it an elegant and understated look.

2 Convenient height adjustment

The hand shower's minimalist slider cube can be pushed to the required position with one hand.

3 Large Select buttons with clear symbols

The showers and spray modes can be intuitively controlled via the metal thermostat.

4 Ultra-flat exposed installation thermostat

The visibly scaled-back composition is a new design archetype.

5 Designflex shower hose

The braided yarn features different colours to give the hose its unique look and pleasant feel. The yarn is made of recycled PET plastic bottles.

The hand shower features a universal, round S design – with a large spray disc (125 mm) and a light, ergonomic handle. The Select button has been perfectly integrated into the handle for a seamless look and convenient toggling between the three spray modes: RainAir, PowderRain and massage spray.

Inspiring yet cosy design

The mesh-effect cover lends the Raindance Alive showers a more fabric-like style, making them look less technical as the mesh surface conceals the spray disc and spray nozzles. Water droplets cascade organically from this innovative structure. This seamlessly blends the shower into the room for a sensational look and a cosy, feel-good atmosphere.

Raindance Alive is also available as a Puro Showerpipe: the pre-assembled shower system's cylindrical shape looks fantastic with the Ecostat Element thermostat and rain shower in a round, organic design.

RainAir and PowderRain from one shower!

The two-spray overhead shower pampers with our two most popular spa spray modes: RainAir and PowderRain.

This new feeling of wellness from the overhead shower can be experienced in two forms: in the softsquare design with rounded corners and in the geometric, round design.

The Raindance Alive concealed installation model with round overhead shower, controlled via an Ecostat Comfort thermostat. Colour: Matt Black.

Pulsify

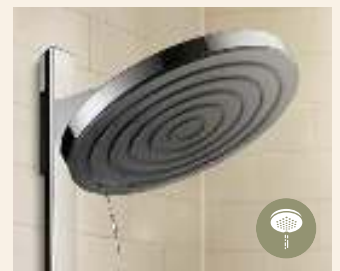

Two impressive designs

Round or square? With two designs (S and E), Pulsify transforms water into wellness – and the shower into our new favourite place with a unique design. No matter the model, microfine PowderRain droplets really do make us feel wonderfully well.

9 out of 10 customers agree: Pulsify EcoSmart delivers a **great shower experience** – and **saves 40 % water.***

Find out more about EcoSmart.

FastDrain. The efficient drainage function noticeably reduces annoying dripping.

Pulsify S

Moving design that leaves a lasting impression

Its modern, round design and timeless look turn Pulsify S into a real eye-catcher in the bathroom, offering a harmonious solution for the entire shower area with round overhead and hand showers, a cylindrical wallbar and Showerpipe. Pulsify S uses the thermostat's flat top as a storage shelf for toiletries – highly convenient.

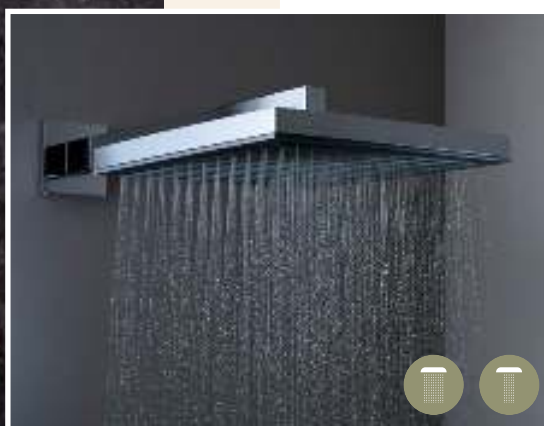

*Source: trnd consumer survey with 150 respondents in July 2022. Water saving compared with the hansgrohe average.

Pulsify E

Bold cubic design

The Pulsify E's square look emphasises its unique style and gives the bathroom a masculine touch. The clear design shapes the entire series down to the smallest details, from the minimalist manual shower to the XXL overhead shower. This is indulgent showering in its purest form.

The PowderRain and Intense PowderRain spray modes cascade from the 260 mm spray disc in the overhead shower.

Timeless bathroom design

In addition to the round S shape, Activera is also available in the Q shape with rounded corners. They come in multiple models, combination options and two stylish colours: Matt Black and Chrome, each with a graphite-coloured spray disc.

The spray disc on the round overhead shower measures 240 mm in diameter – for blissful showering experiences with the Rain spray mode to luxuriously envelop the entire body, despite the far lower water flow rate.

Activera

Showering for every body,
mind and moment

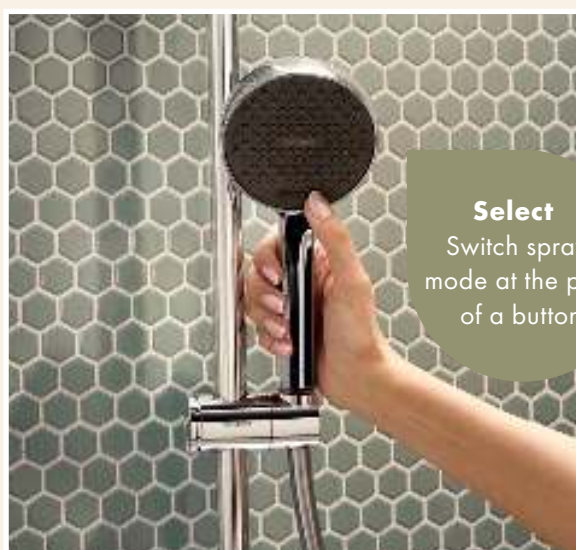

Activera Q

Activera S

A name that combines top shower attributes with low water consumption and makes comfort, joy and safety the priority. Activera maximises shower performance without increasing water consumption in a family- and budget-friendly product range.

Select

Switch spray
mode at the push
of a button

Relaxation at the push of a button

The ergonomic hand shower comes with an intelligent hansgrohe Select button integrated into the spray disc – so simply and intuitively switch the spray mode at the push of a button.

The Showerpipe combines a large rain shower with a comfort shower set and the Ecostat Fine thermostat – the only all-round package of its kind.

With FlexPower
technology and
QuickClean+

Bold look in S & Q

Activera hand and overhead showers, shower sets and Showerpipes create highly modern accents and can be combined with concealed installation finish sets or mixers and thermostats for exposed installation. hansgrohe has incorporated the latest technology into this range of showers.

Unique shower design

hansgrohe designed this range for all bathrooms and needs. Even the Activera S 95 overhead shower looks awesome, pampers with two spray modes and impresses with its strong performance.

Style is not a matter of age or budget

Young people and families with children all love Activera. Because it keeps water consumption low. Because it fits in even the smallest of bathrooms and offers harmonious shower design at a great price.

**A convenient system with shower toiletries within reach**

The Activera Showerpipe combines the minimalist ShowerTablet Select and a large shelf. This latest generation of hansgrohe thermostats for exposed installation features the intuitive and safe Select buttons, SafetyStop and CoolContact.

Shower accessories

For the dream shower from top to bottom

Designflex – the cosy shower hose

The feel: warm, fabric-like, delightful. The look: sensational. The shower hose gets its attractive look from a tight weave technique with colourful yarns that create new, ever-changing patterns. Designflex is waterproof, water-repellent and can be cleaned in the dishwasher. As a small but trend-setting detail, the yarn is made of recycled PET plastic bottles from the Black Forest in Germany, making this a sustainable purchase.

Designflex fits all standard hand showers – simply screw it on. The innovative shower hose reflects the FinishPlus palette found in hansgrohe showers, mixers and accessories – for an elegant and harmonious colour scheme in the bathroom.

FixFit Fine & Porter Fine – elegant wall connections and shower supports

The Porter Fine shower support and FixFit Fine wall connection, available in the S, Q and E shapes, perfectly complement hansgrohe finish sets. The variety of FinishPlus finishes allows for individual, seamless shower design. Precise workmanship and durable metal wall flanges ensure excellent quality.

When all products in the shower are in the same style and colour, it's an aesthetic delight. All hansgrohe accessories pictured here go together perfectly in this shower system.

Installation options for the shower

Concealed installation – who is it for?

Fans of minimalist design. It offers accessibility and cuts down on the risk of bumping into things – perfect for multi-generational bathrooms. Anything that shouldn't be "out in the open" can be hidden behind the wall. To do this, the wall needs to be opened up. It is therefore a great option for new builds or renovations. Important: leave this job to the sanitation experts who know how to install the iBox universal 2 and connect the correct finish sets.

Concealed installation: the technology that can be hidden in the wall for a minimalist look

Elegant shower system with the PowderRain overhead shower

Concealed solutions ensure a tidy look for the shower or bath tub and allow more room to move. How is this feeling of spaciousness created? By having the water technology installed in the wall and flat finish sets controlling the shower heads. The Brushed Bronze ambience consists of a Rainfinity overhead shower, Rainfinity shower set and ShowerSelect Comfort E concealed thermostat, which creates a home spa with the perfect shape, colour and functionality.

A modern boost of freshness with a hand shower

The hand shower is held by a porter set on a wallbar and the hose is screwed onto the wall connection. A flat, minimalist solution like this breathes new life into the bathroom, especially as everything is in Matt White. This combination consists of a three-spray Pulsify S hand shower and a DuoTurn Q concealed mixer for one outlet. Alternatively, a thermostat can be installed to ensure the temperature is always pleasant without fluctuations.

Exposed installation – who is it for?

People who want to modernise their shower the simple and unique way, but who don't want a full renovation. The comfort solutions are simply installed on existing water connections. The fixing dimensions are standard sizes to ensure all systems work in every bathroom. After all, even rental apartments deserve a refresh every once in a while, and Showerpipes can be quickly removed and replaced with shiny new ones.

Exposed installation:
quickly and easily
take the shower to
the next level

Showerpipe with overhead shower: the light renovation option

It's the quickest way to a large rain shower, as the Showerpipe comes pre-assembled and is installed on existing connections. This saves time, effort and money. When it comes to design and functionality, everything is perfectly coordinated. The elegant Raindance Alive Showerpipe consists of an overhead and hand shower with a fabric-like hose, ultra-flat thermostat and a bold, cubic riser pipe.

A shower set with shower mixer

When this stylish set-up is installed in the shower, it results in a low-cost refresh that takes no time at all to complete. The Pulsify shower set can be easily connected to the wall, and the Tecturis E single lever shower mixer to existing water connections. A design combination that can refine any bathroom. And an eco-friendly hansgrohe shower that can support a responsible lifestyle.

Blissful spray modes

RainAir

Full shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

PowderRain

Relaxing, micro-fine droplets that softly and silently cocoon the body. For sensual showering.

Intense PowderRain

Intense spray consisting of thousands of micro-fine droplets. Thorough, soothing and low-splash.

Rain

Invigorating and energizing showering indulgence with full shower rain designed for everyday shower pleasure.

Focussed spray modes

Intense Rain

Powerful, stimulating water spray that washes away tiredness and leaves people feeling fit.

Impact Rain

Massaging spray with an innovative design creates an intense showering feeling with just a little water.

Whirl

Concentrated massage spray that helps to nicely and gently wash away everyday tensions and stress.

MonoRain

Focused and extremely gentle spray for soothing wellness moments and hydrotherapeutic showering.

RainStream

Lavish downpour consisting of individual pearl-like droplets that invigorate mind, body and soul.

Massage

Invigorating, focused and powerful spray for the home spa that allows the day's stresses to simply drain off.

Learn more about our spray modes!

An overview of
our technologies
> Page 228

Save water, energy and money in the shower

EcoSmart

Thanks to integrated flow limitation, hansgrohe showers with EcoSmart use up to 40 % less water than our showers without this technology. With EcoSmart+, it's as much as 60 %. Many EcoSmart showers therefore consume only 8 l/min – or just 6 l/min or less with EcoSmart+.

Find out more about EcoSmart.

Evens out pressure and simplifies cleaning

FlexPower technology

ensures consistent performance and powerful water sprays at low or fluctuating pressure. The flexible Flex nozzles in the spray disc are shaped like a clover leaf and ensure the pressure evens out through constant dynamic movements. This also allows less limescale to accumulate, which can further reduce the need for cleaning. Pictured here: Activera overhead shower.

RainDrain

Powerful design drains

The stylish finishing touches can be added to the walk-in shower with these drain systems, which are installed flush with the flooring for more comfort and a better look. Product ranges such as RainDrain Minimalistic and RainDrain Flex make used water subtly and efficiently disappear beneath the flooring. We offer a wide choice, different lengths up to 160 cm and models that can be shortened. Only high-quality siphon and drain technology will do when it comes to safe drainage that stands the test of time. hansgrohe quality sets a standard that can be relied on fully.

The perfect shower layout from top to bottom

Whether in renovations or new builds, RainDrain is the perfect drain technology for consistent bathroom concepts. With hansgrohe, shower drain channels turn the shower area into a holistic design zone, as their colour is made to match the finishes on our mixers and showers.

RainDrain Rock – for natural stone up to 40 mm thick

RainDrain Match – rotatable design cover, can be tiled on the back

RainDrain Flex – sleek in seven surfaces

RainDrain point drains

They are called RainDrain Spot, RainDrain Brilliance and RainDrain Point. They blend seamlessly into their surroundings and do a great job. With covers in tasteful designs, they add the perfect finishing touches to the dream shower. Available in Brushed Stainless Steel, with tiles or in a Matt Black finish and in sizes 10 x 10 cm or 15 x 15 cm. All point drains come with a pre-assembled sealing fleece, hair catcher and siphon.

RainDrain Point – beautiful and compact floor drain

RainDrain Staro

This is the name of our easy- and safe-to-install drain kit for the shower tub with its chic design finish. The drain plug is available in all FinishPlus finishes so that it can be harmoniously coordinated with the remaining bathroom design. Another positive: it's easy to clean as it's made of polypropylene (PP) and ABS.

RainDrain Staro with elegant drain plug in Chrome.

Dryphon

Easy to clean with an excellent outflow performance

Dryphon is a mechanical odour trap that blocks all unpleasant smells. Once the water is drained, the opening with the high-tech membrane immediately closes to prevent any direct connection to the sewer. Dryphon handles water from large overhead showers at high speeds, thus exceeding standard values.

Exceptional
drainage capacity
of up to 60 l/min

hansgrohe shower drain channels fitted with Dryphon technology minimise the cleaning effort, as the powerful siphons prevent hair and dirt from accumulating in the drain by transporting them away quickly. When it comes to cleaning, this saves so much time and frustration, year after year.

Find out more about Dryphon

Exafill: winner of the
iF Design Award.

Stylish drain kits for the bath tub

An atmosphere of calm, a feeling of utter relaxation – all that's needed to create this is a sophisticated design concept where every detail is perfectly coordinated. Our minimalist bath tub fillers, drains and overflows are ideal for this. Available in various FinishPlus surfaces, they suit any bathroom style and create elegant, slimline accents.

Exafill and Flexaplus

Exafill is a bath filler, drain and overflow. The temperature and water flow are regulated using a separate concealed mixer. A Flexaplus drain and overflow set is a great choice if the bath tub is filled with a separate filler.

Minimalist design for undisturbed experiences in the bath. This intuitive push-open plug is pushed down to seal in the bath water and pushed up to open the drain and allow the water to flow away.

Made to match all
FinishPlus colours.

Exafill can be subtly framed in a FinishPlus colour like Brushed Bronze. The bath tub filler can be seamlessly adjusted – from a quiet spray to one that creates lots of foam.

Concealed controls

The freedom of finish sets

Fans of minimalist design love the ability to hide all that they don't want on view within the wall: the technology. Our ultra-flat thermostats for the shower and bath tub keep the wet area looking neat and tidy – perfect for accessible bathrooms.

Why choose concealed installation?

In addition to the minimalist look and feel, installations with finish sets are also impressively easy to clean. And all water experiences become low-noise thanks to their sound absorption properties.

How many water sources?

Before choosing a thermostat mixer, there needs to be clarification on the number of outlets: should it be a bathroom with a hand shower, an overhead shower or both? Should the spray modes on the shower(s) be controlled via a thermostat? The answers to these questions will determine the correct thermostat model.

hansgrohe finish sets also compensate for walls on an incline and installations on a slope.

Left: This kind of sleek, Matt White solution adds a breath of fresh air to the shower. Here, a three-spray Pulsify S hand shower is controlled by a round ShowerSelect Comfort S.

Below: This square ShowerSelect Comfort E thermostat controls two outlets: An overhead shower and a manual shower. Geometric shower range: Pulsify E. Colour: Brushed Bronze.

iBox universal 2

Efficient installation offering maximum flexibility

Every installation becomes child's play with the hansgrohe finish sets and the iBox universal 2. The innovative basic set for concealed thermostats ensures quick and simple installation. If the thermostat needs to be replaced further down the line, this is also not a problem – all finish sets can be replaced by another without major effort. The iBox universal 2 is compatible with all current finish sets, such as the ShowerSelect Comfort or Ecostat Comfort thermostats.

iBox universal 2 at a glance:

1 Mounting ring

Installation in, on or in front of the wall. The mounting ring can be placed on the front or back.

2 Box made of EPP foam

Versatile: Polypropylene is sound-absorbent, insulating, waterproof and recyclable.

3 Sliding sleeve

The sliding sleeve is easy to slide, regardless of the installation depth.

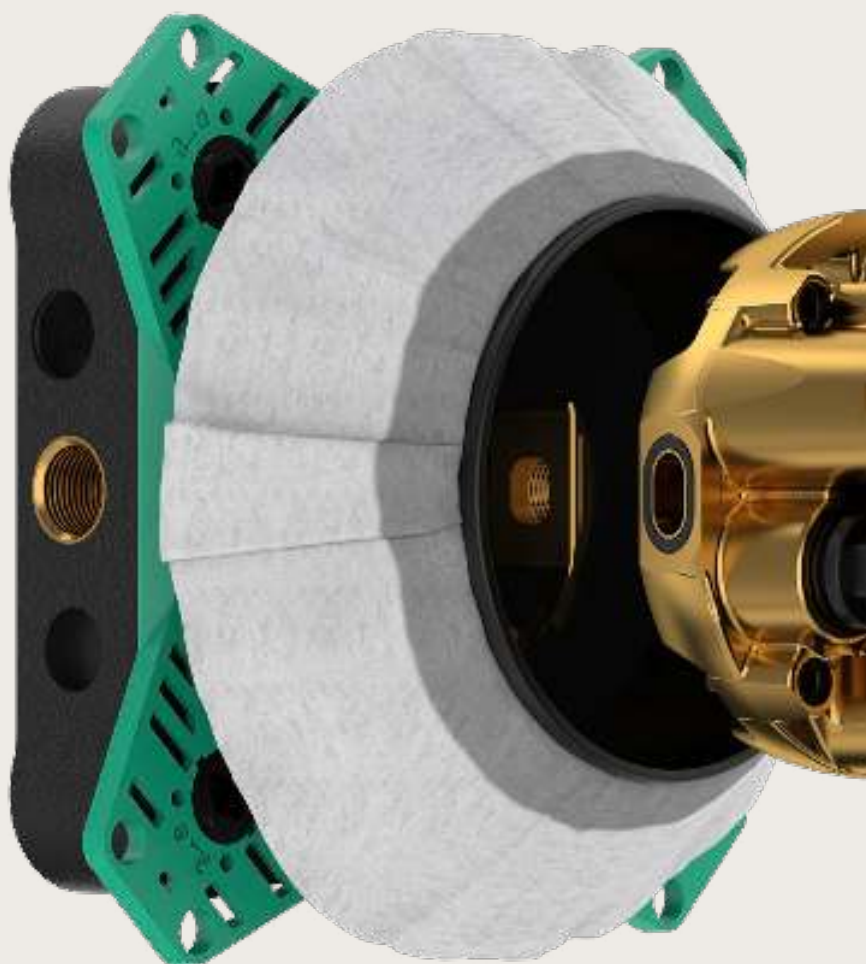

4 Pre-assembled sealing foil

Elastic and reliable: firmly attached to the sliding sleeve, the pre-assembled sealing foil will not go missing.

5 Pre-assembled function block

The durable connection block made of high-quality metal enables safe, fast installation.

Find out more about the iBox universal 2.

“The time saved on the job site is huge, during both initial installation and final assembly at the end.”

Maike Weinhardt, Hiller Sanitär- und Heizungstechnik KG, Germany

ShowerSelect Comfort

A work of art for the wall

The elegant design turns the shower into a beautiful eye-catcher and brings a new dimension of comfort into the bathroom. Reliable hansgrohe thermostat technologies ensure a soothing, safe shower experience.

- 1 Select buttons offer convenient outlet control
- 2 SafetyStop
- 3 Temperature regulation
- 4 Water Flow Control
- 5 Metal buttons and handle

Finishes

- Chrome 000
- Brushed Bronze 140
- Brushed Black Chrome 340
- Matt Black 670
- Matt White 700

Outlets: 1-4

Above: This ultra-flat shower installation with ShowerSelect Comfort controls three outlets and needs two iBox universal 2s. Showers and spray modes are operated via large, intuitive buttons.

Shower with up to four outlets.

Puristic and elegant

The square ShowerSelect Comfort is the perfect match for the Pulsify E shower set's cubic design language. With a depth of just 40 mm, this water control system is extremely flat and minimalist – for even more freedom.

EcoStat Comfort

Thermostat technology – always on point

An attractive concealed thermostat for the shower and bath tub that controls up to two outlets. It refines the bathroom through intuitive operation and minimalist aesthetics – in three shapes and six colours.

- 1 Conveniently turn the dial to control the outlets. With Water Flow Control
- 2 Temperature regulation
- 3 Metal handle
- 4 SafetyStop

Finishes

- Chrome 000
- Brushed Bronze 140
- Brushed Black Chrome 340
- Matt Black 670
- Matt White 700
- Polished Gold Optic 990

Outlets: 1-2

DuoTurn

Turn up the comfort with this concealed mixer

This new generation of concealed mixers combines simple controls with clear, universal design – both in the shower and bath tub. Simply switch from the hand shower to the overhead shower to turn up the comfort.

- 1 Turning the dial conveniently controls the outlets and water flow
- 2 Temperature regulation
- 3 Metal handle

Finishes

- Chrome 000
- Brushed Bronze 140
- Matt Black 670
- Matt White 700

Outlets: 1-2

Simple, safe, speedy installation – and it's now compatible with the iBox universal 2.

Shower and bath mixers for each product range

From Focus to Talis, Logis to Metropol, our shower and bath mixers offer a wide variety of design options – for individual bathroom design in a consistent look from one range.

Modern, minimalist bath mixers – and they're now even easier to use with Select.

Shower mixers make the perfect partners for bath mixers from the same range.

Exposed controls

A constant feel-good temperature without fluctuations

Our “pre-wall” comfort solutions instantly improve the water experience. They are ideal for anyone looking to modernise their shower or bath tub with little effort as the old connections can often be used.

ShowerTablet Select

Design thermostats with a convenient shelf

Presenting our practical exposed thermostat in a new look, with the same intuitive Select controls, high performance and the option to have everyday bathroom items within reach.

ShowerTablet Select 360

Timeless look that outlasts fleeting trends. The modern design with a refined two-tone finish and graphite grey front is a match made for any bathroom.

- 1 Select button
- 2 SafetyStop
- 3 CoolContact
- 4 Convenient storage solution with integrated shelf

Finishes

- Chrome 000

- Brushed Black Chrome 340
- Matt Black 670
- Matt White 700

The classic: ShowerTablet Select 400, pictured here in Brushed Bronze, with integrated shower holder.

Ecostat Fine & Element

Thermostats for maximum comfort

Two thermostat ranges that pamper people with a constant water temperature and protect against burns. They also help to use water and energy economically, and their puristic design truly suits every shower and bath tub.

- 1 Specially designed handles with improved grip – for a safe way to set the temperature and water flow without slipping.
- 2 SafetyStop
- 3 EcoStop
- 4 WaterFlowControl

Finishes

-  Chrome 000
-  Brushed Bronze 140
-  Brushed Black Chrome 340
-  Matt Black 670
-  Stainless Steel Optic 800

Ecostat Fine has a puristic design with a graphite grey flag for perfect grip on the handles. Harmoniously combine the exposed installation thermostat with Activera shower heads with a graphite-coloured spray disc, for example.

Outlets: 1

Intelligent technologies and clever functions. For more comfort, sustainability and safety

An overview of
our technologies
> Page 229

SafetyStop

Safety lock at over 40 °C – temperature limit prevents excessively hot water from escaping.

Water Flow Control

Actively regulates water consumption – the amount of water can be adjusted via the control dial.

CoolContact

Thermostat with innovative cooling technology for blissful and indulgent showering.

EcoStop

Full control when saving water. The EcoStop function supports a more sustainable shower by initially reducing the water flow to a maximum of 10 l/min (at 3 bar). The water flow can be increased as necessary by actively and deliberately pressing the EcoStop button.

Bathroom mixers

From classic to modern – one range

hansgrohe mixer categories are known for their typical design that can be applied to all areas of the bathroom, so the design language at the wash-place and showerplace as well as around the bath tub and bidet is the same – this strikes an aesthetic balance with all mixers matching.

Metropol mixers are known for bold precision. With its geometric clarity, this high-quality hansgrohe range creates a perfect visual connection to all areas of the bathroom.

Right: The floor-standing Metropol mixer with its striking silhouette as it towers high beside the bath tub. The manual shower is hung up on the mixer's long shaft.

Below: Metropol design unit with Raindance Alive hand shower. The shower hose disappears into the rim for a minimalist look. Once here, the hansgrohe sBox enables it to be smoothly pulled out and retracted.

An impressive design statement

A linear look – either as a mixer for the guest toilet or for countertop vanities. Available in elegantly shimmering metallics or matt colours.

Finishes

-  Chrome
000
-  Brushed Bronze
140
-  Brushed Black Chrome
340
-  Matt Black
670
-  Matt White
700
-  Polished Gold Optic
990

Metropol

The bold one – for more minimalism

Mixers for fans of clear statements and no embellishments. This design creates precise, geometric accents in all areas of the bathroom, and the wide range of products features various finishes and spout heights.

Confident style, even in concealed installations

For the masculine touch: here the Metropol lavatory mixer in Brushed Black Chrome is paired with the Xuniva Evo E wash basin.

Finoris

The flexible one – for more free space

These mixers guarantee the best possible operating radius, particularly around the wash basin. For a convenient way to wash hair or bathe the baby, the pull-out spray enables people to complete tasks that other mixers simply cannot handle.

Even without a pull-out spray, Finoris lavatory mixers are modern gems.

Finishes

- Chrome 000
- Brushed Bronze 140
- Brushed Black Chrome 340
- Matt Black 670
- Matt White 700

Finoris Flex pull-out spray with two spray modes

Users can conveniently switch between delicate PowderRain and the focused laminar spray via the diverter directly integrated into the pull-out spray.

The extensive range of Finoris products is also impressive on the bath tub. Pictured: a stylish combination of black concealed mixer and Rainfinity manual shower.

Vivenis

The natural one – for a waterfall in the bathroom

These mixers surprise people with unexpected moments of enjoyment, as they produce a wide, luxurious spray that calls to mind a waterfall. Enriched with air, the silky smooth flow envelops the face and hands, transforming the interaction with the natural element into an emotional experience.

Finishes

-  Chrome 000
-  Brushed Bronze 140
-  Brushed Black Chrome 340
-  Matt Black 670
-  Matt White 700

Elegant design with gentle curves

The spout and water blend together harmoniously in a tasteful design that impresses customers wanting something special. The large surfaces give the mixer a high-quality look, while the ease of use of the lever's flat, ergonomic design pampers the user. When purchased in their favourite colour, Vivenis becomes an eyecatcher – both in the shower and on the bath tub.

Tecturis

The architectural one – for water in a new design

The E shape is bold and linear, the S gently rounded. Tecturis E creates a unique space where architectural principles and functionality come together beautifully. These mixers turn the bathroom into a beautiful feel-good space where the enjoyment of water is celebrated.

Finishes

-  Chrome
000
-  Brushed Bronze
140
-  Brushed Black Chrome
340
-  Matt Black
670
-  Matt White
700

Tecturis E

The clarity and power of water is reflected in the linear mixer design. Straight lines and the perfect integration of the round cartridge create a highly aesthetic atmosphere in the bathroom.

Tecturis S

The rounded mixer design is inspired by the gentle flow of water. The aerator is concealed in the U-shaped spout. The feminine design represents relaxation and wellbeing and can be perfectly partnered with rounded wash basins and furniture (pictured here with Xelu Q). Both Tecturis mixers are operated using the redesigned handle on the side.

Finishes

-  Chrome
000
-  Brushed Bronze
140
-  Brushed Black Chrome
340
-  Matt Black
670
-  Matt White
700

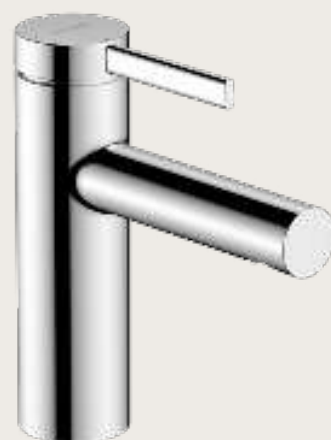

Elegant washplace in the guest bathroom: Tecturis is available in different ComfortZone heights to create architectural elegance, even in the smallest of spaces. Pictured here with AddStoris accessories in the same colour.

Zesis

The understated one – when life is loud, it takes design that whispers

With their calming presence, the Zesis S mixers turn the bathroom into a place of relaxation. Our all-rounder combines charming looks, an attractive price and economical technology.

Finishes

- Chrome
000
- Matt Black
670

A subtle yet effective detail: the aerator is perfectly integrated into the mixer spout – a game changer that creates a minimalist aesthetic.

Modern and timeless: whether in Chrome or Matt Black, Zesis S enhances the bathroom. The cylindrical look blends stylishly into all surroundings. The mixer's low-profile handle and base without a plinth contribute to an elegant design that exudes serenity.

Neovis

The elementary one – for a simpler daily routine

This reliable mixer category strikes a playful balance between performance, design and cost efficiency – without compromising on quality or environmental sustainability. Whether in new builds or renovations, traditional or modern interior design, Neovis Q is always the right fit.

Finishes

The soft curves and smooth Chrome finish on Neovis Q mixers create a design that is as inviting to the hand as it is to the eye.

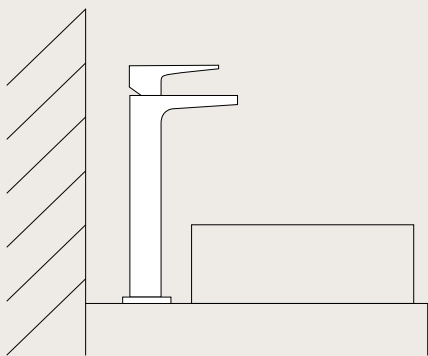

Installation types

Perfect for every wash basin

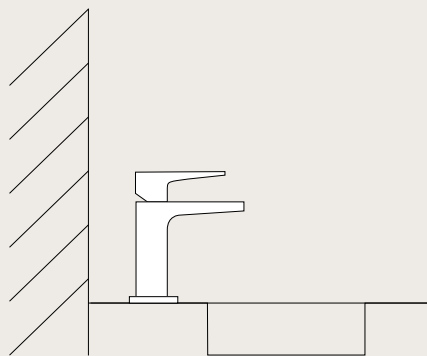

Pulling the plug in the wash basin:

The drain valve can be opened and closed using a pull rod or PushOpen technology.

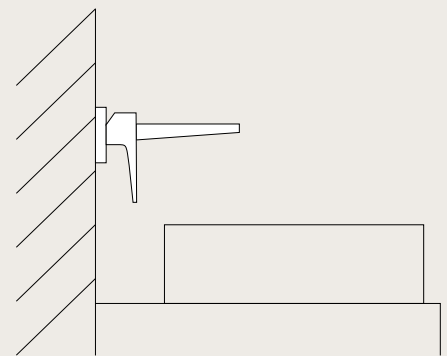

Freestanding: Tall mixer behind a countertop basin

Here a single-hole mixer stands tall behind a countertop basin – a graceful installation option that looks lovely.

Freestanding: Mixer on wash basin with tap hole bench

Here a single-hole mixer is installed in the tap hole of a countertop basin – a traditional design that offers additional storage space.

Wall mounting: A concealed installation mixer above the ceramics

The spout of a wall-mounted mixer appears to float above the wash basin here – an elegant option that guarantees plenty of room to move.

Less water, better feeling

Intelligent technologies that make hansgrohe mixers a good choice

An overview of
our technologies
> Page 230

EcoSmart

Saving resources with pleasure! The clever EcoSmart technology reduces the water consumption of hansgrohe lavatory mixers to no more than 5 l/min*, while EcoSmart+ products consume even less at a maximum of just 4 l/min*. Integrated flow limitation ensures a conscious use of water and energy required to heat the water. All without a loss of comfort.

*at 3 bar

Find out more about
EcoSmart.

CoolStart

Energy-saving CoolStart mixers only allow hot water to flow when the lever is actively moved – whereas standard mixers immediately consume energy when the handle is opened in the basic position. CoolStart helps to conserve resources and cut CO₂e emissions and costs. This soon mounts up for households, but even more so in hotels and the public sector.

Find out more about
CoolStart.

Plan your dream washplace step by step

Measure your washplace and define your design style

First, a list of measurements is required. Once the available space has been measured, you can define the design style. Modern or traditional? If possible, think about the design concept for the entire bathroom to keep the style consistent. Then find the perfect ceramics.

> Page 22

2

Determine the wash basin's installation type, size and shape

From handrinse basins in the guest bathroom to double wash basins, the hansgrohe range includes different types, sizes and designs. It looks harmonious when the washplace, toilet and bidet area all feature products in the same shape, for example softsquare (Q) or round (S). We also offer universal shapes that look good wherever they are. It goes without saying that all products can be matched to suit personal taste.

> Page 134

Find the perfect wash basin furniture

Choosing furniture that has been perfectly coordinated with the wash basin creates an architectural design unit and extra storage space. The size and shape of the vanity unit needs to match the wash basin and suit the installation type, and its finish needs to work well with the bathroom's interior.

> Page 146

4 Arrange a tidy system for the furniture

hansgrohe bathroom furniture can be fitted with IntraStoris, a smart interior divider solution that efficiently organises all drawers and cabinet compartments.

> from page 167

5

5 Add a matching mirror

Xarita and Xarita Lite are high-quality framed, practical helpers for all washplace routines as well as being atmospheric light sources in the bathroom. They can be conveniently operated via a wall switch, IR sensor or capacitive touch sensor.

> Page 168

6 Select the perfect mixer for the ceramics

For perfect water experiences, the basin mixer needs to be a great fit for the wash basin. You can find our recommendations for dynamic duos under hansgrohe ExcellentFit. For an overall aesthetic appearance, we recommend emulating the shape and colour of the mixer in the shower, bath tub and bidet.

> Page 90

7

7 Add accessories

All that's left is the soap dish, toothbrush cup and other accessories. Find the perfect finishing touches for the washplace with matching accessories from the AddStoris or WallStoris ranges. Tip: coordinate the accessories with the colour of the mixer.

Avalegra

A fusion of wash basin and mixer

When the wash basin and mixer, the familiar and the new, are combined, it creates something extraordinary: hansgrohe Avalegra. A harmonious balance between comfort and uniqueness – for a water experience more natural, comfortable and joyful than any other.

Water remains water.

Everything else changes.

The Avalegra AquaUnit offers a fully innovative water experience. It can do anything a standard wash basin with mixer can – plus so much more. Its new shower function, a parabolic water spray, opens up new ways to use the mixer, transforming water at the wash basin into a spa-like experience. Available in five FinishPlus designs, Avalegra can be perfectly paired with various design styles and bathroom furniture.

What a welcome: water with an extraordinary twist

The Rain spray flows in an arch from the integrated spray mat. The perfect synergy between the pressure limiter and shower reduces the spray to 4 l/min, without any loss of power or intensity – for a completely new water experience that leaves us feeling refreshed and pampered and creates a sensational spa feeling.

Design that flows in harmony with the water

Avalegra is a minimalist and premium-quality design unit. With its precise shape, the thin-walled wash basin has an extremely elegant look. It features a slimline drain and a slope so that the water flows toward us, almost like being by the shore. The swivel spout has been stripped back to the essentials and meets our every need in terms of comfort at the washplace.

The minimalist swivel spout with clear laminar spray offers maximum room to move and directs the water to exactly where it's needed.

Low-maintenance beauty thanks to solid surface

The wash basin impresses users with its scratch-resistant and long-lasting solid surface material. But if scratches do ever appear, they can be buffed out as if they were never there. The pore-free Matt White finish also keeps deposits such as limescale and dirt at bay – for super-simple cleaning. And: the wash basin gently collects every drop, without causing a splash.

Avalegra AquaUnit and Xevolos E washplace furniture are combined to create a sophisticated console solution that doubles as a stylish seat.

User comfort and safety

The AquaUnit is so innovative and safe to use: Avalegra is the first hansgrohe mixer at the washplace with a thermostat to protect against sudden temperature fluctuations. The temperature, water flow and spray mode can be conveniently controlled using two cylindrical handles. A preferred temperature can also be kept constant – for a nice start to the next pamper session.

Xuniva Evo

Impressive countertop vanity wash bowls

With this premium wash bowl type, hansgrohe allows innovation and aesthetics to seamlessly flow into one. Impressive water experiences have been created inspired by the endlessness of an infinity pool.

Xuniva Evo S

Xuniva Evo E

Xuniva Evo U

With their clean lines, the delicate ceramics are a timeless work of art. Round, square, rectangular or RaceTrack? With a variety of shapes, Xuniva Evo meets the need for unique bathroom design. And the shadow gap makes the wash bowl look like it's light enough to float.

**Vibrant wash bowls
with a unique aesthetic**

White, Matt White, Sand Matt Beige, Slate Matt Grey or Matt Black, the hand-made ceramics demonstrate their high-end quality in each of these colours. Design lovers appreciate bold statements, conscious consumers the versatility and durability of the high-quality material.

An immersive experience reminiscent of waves along the shore

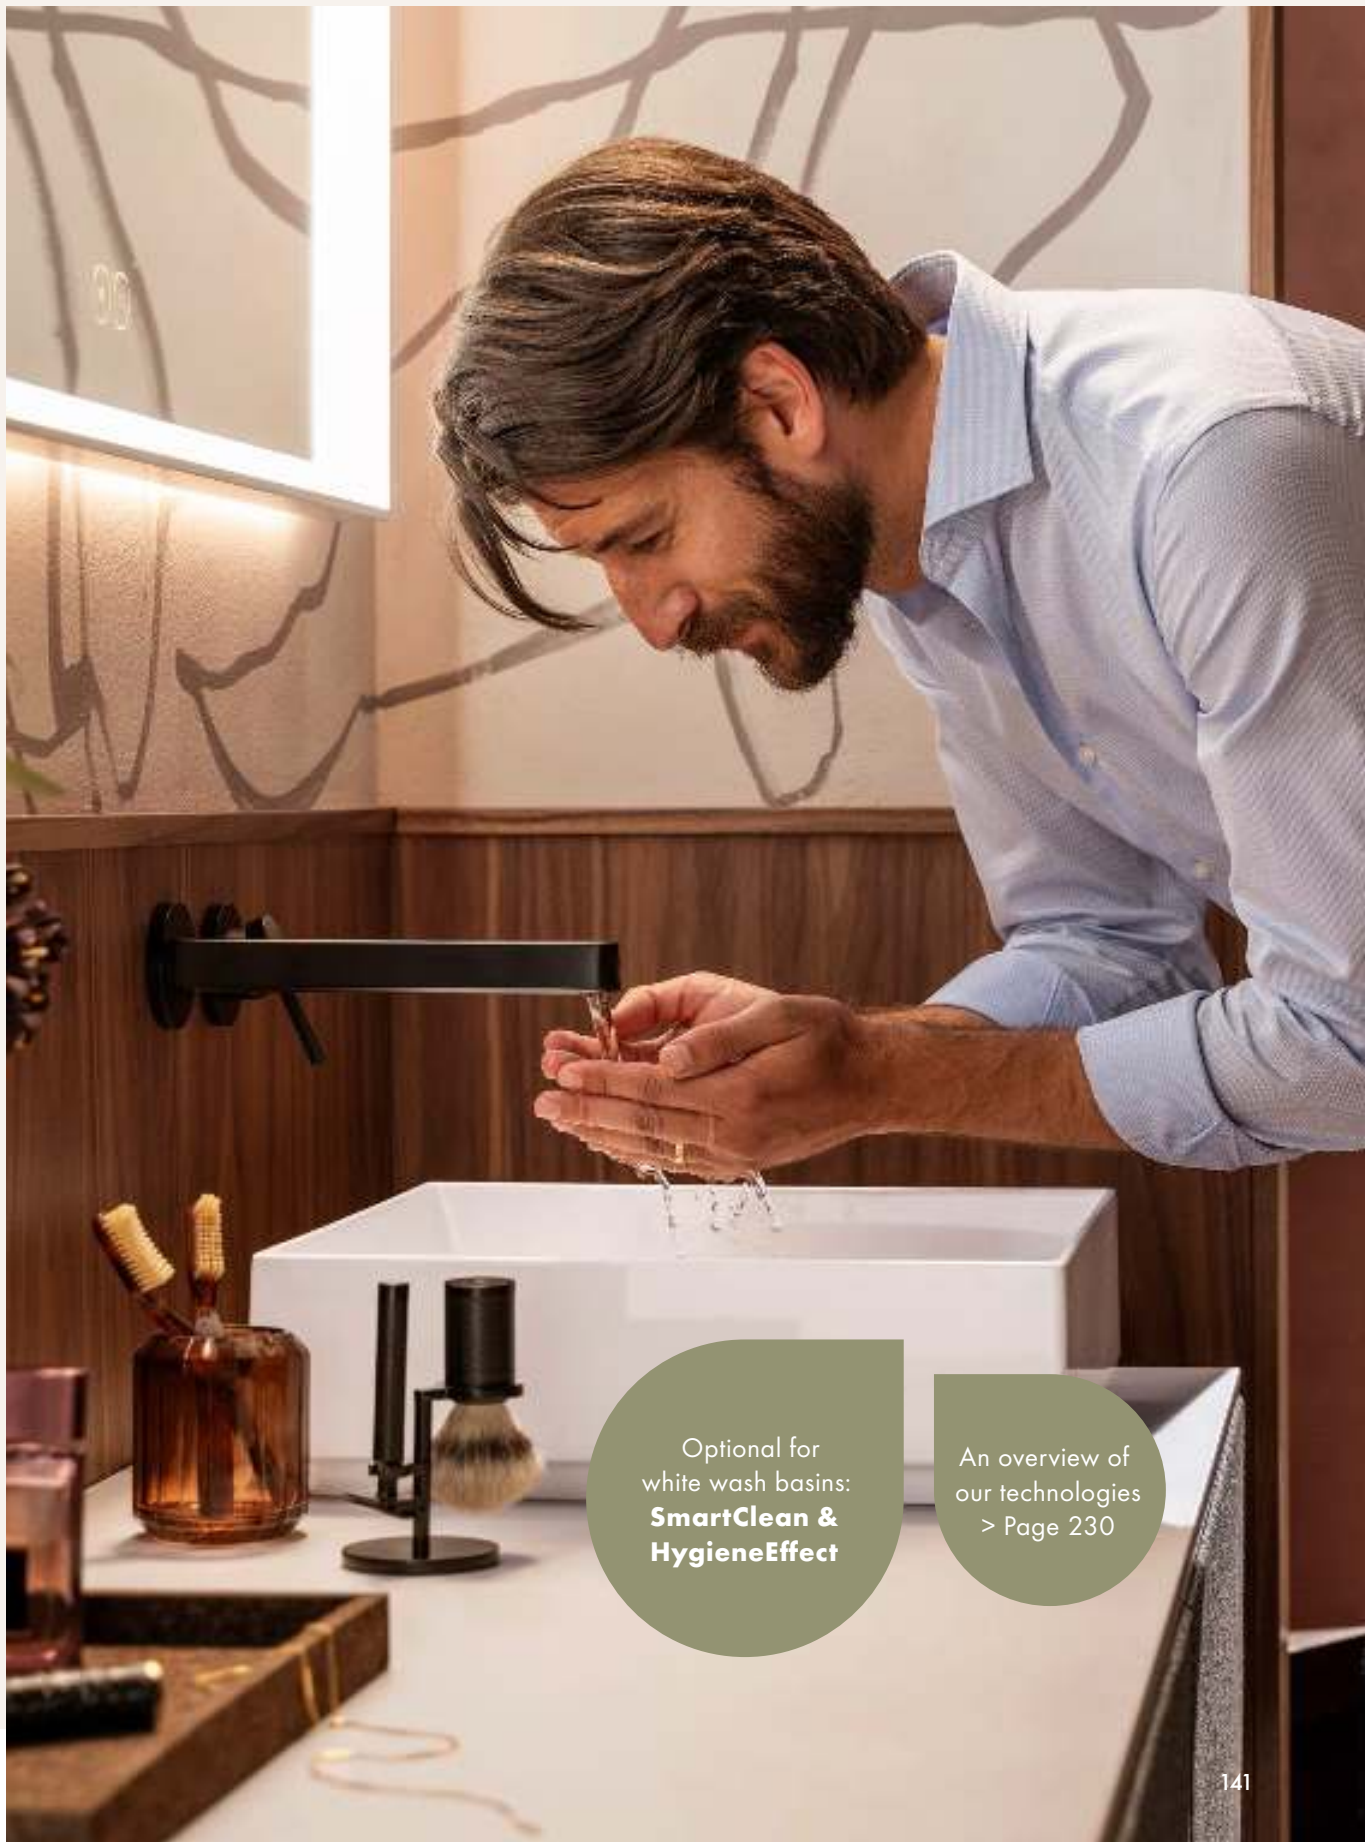

Unlimited well-being when doing daily routines: with Xuniva Evo wash bowls, water becomes a sensual hug. But how?

Through sophisticated geometry and the highest design quality. The inner basin is slightly bevelled with a hidden drain at the front. So water flows toward us in a natural movement, is gently collected and then disappears into endless depths. Through this art of hidden details, not only do we get a wash bowl that functions perfectly, but also countless day-to-day moments full of life.

Xuniva Evo in a holistic bathroom design

Thanks to FinishPlus, the wash bowls can be made to match hansgrohe mixers such as Metropol, Finoris, Vivenis or Metris. When paired with the Xarita E and S mirrors and the Xilesa E and Xevolos E furniture ranges, a consistent design aesthetic is created with a complete bathroom that's perfect for people who expect more.

Xuniva

Stylish wash basins for universal use

Xuniva gives the bathroom an extra special something. The ceramics come in four designs and three installation types: undercounter, above counter or countertop vanity. The thin basin wall creates an elegantly scaled-back, feel-good look in all designs.

With Xuniva wash basins in four different shapes, there are so many design directions to go in:

Q equals softsquare design with rounded corners.

S equals round, geometric design.

D equals oval elegance with elongated curves.

U equals linear design rounded off with curves.

Elegance in four dimensions

Xuniva wash basins look harmonious in all bathrooms, from the family refuge to public toilets, whether paired with wash basin consoles or undermount furniture. The mixers can be placed on or behind the ceramics.

The optional SmartClean glaze is perfect for preventing lingering dirt particles on high-quality ceramics.

Family-friendly: the spacious tap hole bench offers plenty of room for bathroom items, while the rim around the wash basin stops water from overflowing.

Xanuia

Attractively priced handrinse basins and wash basins

hansgrohe developed this range to make everyday bathroom routines more convenient – and turn the washplace into a feel-good zone. Xanuia Q shines in the softsquare design with rounded corners, a shape which adds aesthetic appeal to all bathrooms.

Xanua Q: every solution a game changer

The spacious inner basin provides plenty of room, while the slender rim looks light in many sizes and models. Models without a tap hole and overflow hole are also available.

One basin, many uses: Xuniva shines in large bathrooms and small guest bathrooms alike. Top: with a wall-mounted basin mixer.

Xevolos

Bathroom furniture and wash basins that turn the bathroom into a living space

Comfort in its most beautiful form: the striking Xevolos E combines sophisticated design and cosy charm to create a stylish washplace. Every detail is perfectly planned and blends harmoniously into a bathroom with an extraordinary feel-good factor.

Xevolos E furniture

Cabinets that offer so much space for individual needs

The expanded Xevolos range offers multiple opportunities for mixing and matching. The Sand Matt Beige finish with the dark grey fabric inlay creates a warm, cosy atmosphere in this tall cabinet.

The half-height vanity unit makes the interior design look so light it's floating. Pairing metallic glass inlays (e.g. Metallic Sand Beige) with matching body and console finishes (e.g. Sand Matt Beige) produces an understated, monochrome vibe. Adding a sideboard creates a harmonious shift design that can be used in many ways – as seating, a decorative platform or practical storage space.

With its variety of sizes and materials, Xevolos E offers plenty of choice and lots of options. When paired with the Matt White, Sand Matt Beige and Slate Matt Grey body and console finishes, the high-quality inlays made of glass, ceramics, textile or wooden decor add unique character to the space. And there's something for every taste: cosy, bold or monochrome. Xevolos E has it all.

1 Slate Matt Grey body

2 Dark Oak front

2 Metallic Slate Grey front

2 Patterned Bronze front

Xevolos E furniture can be combined with Xevolos and Xuniva Evo wash basins as well as the Avalegra AquaUnit.

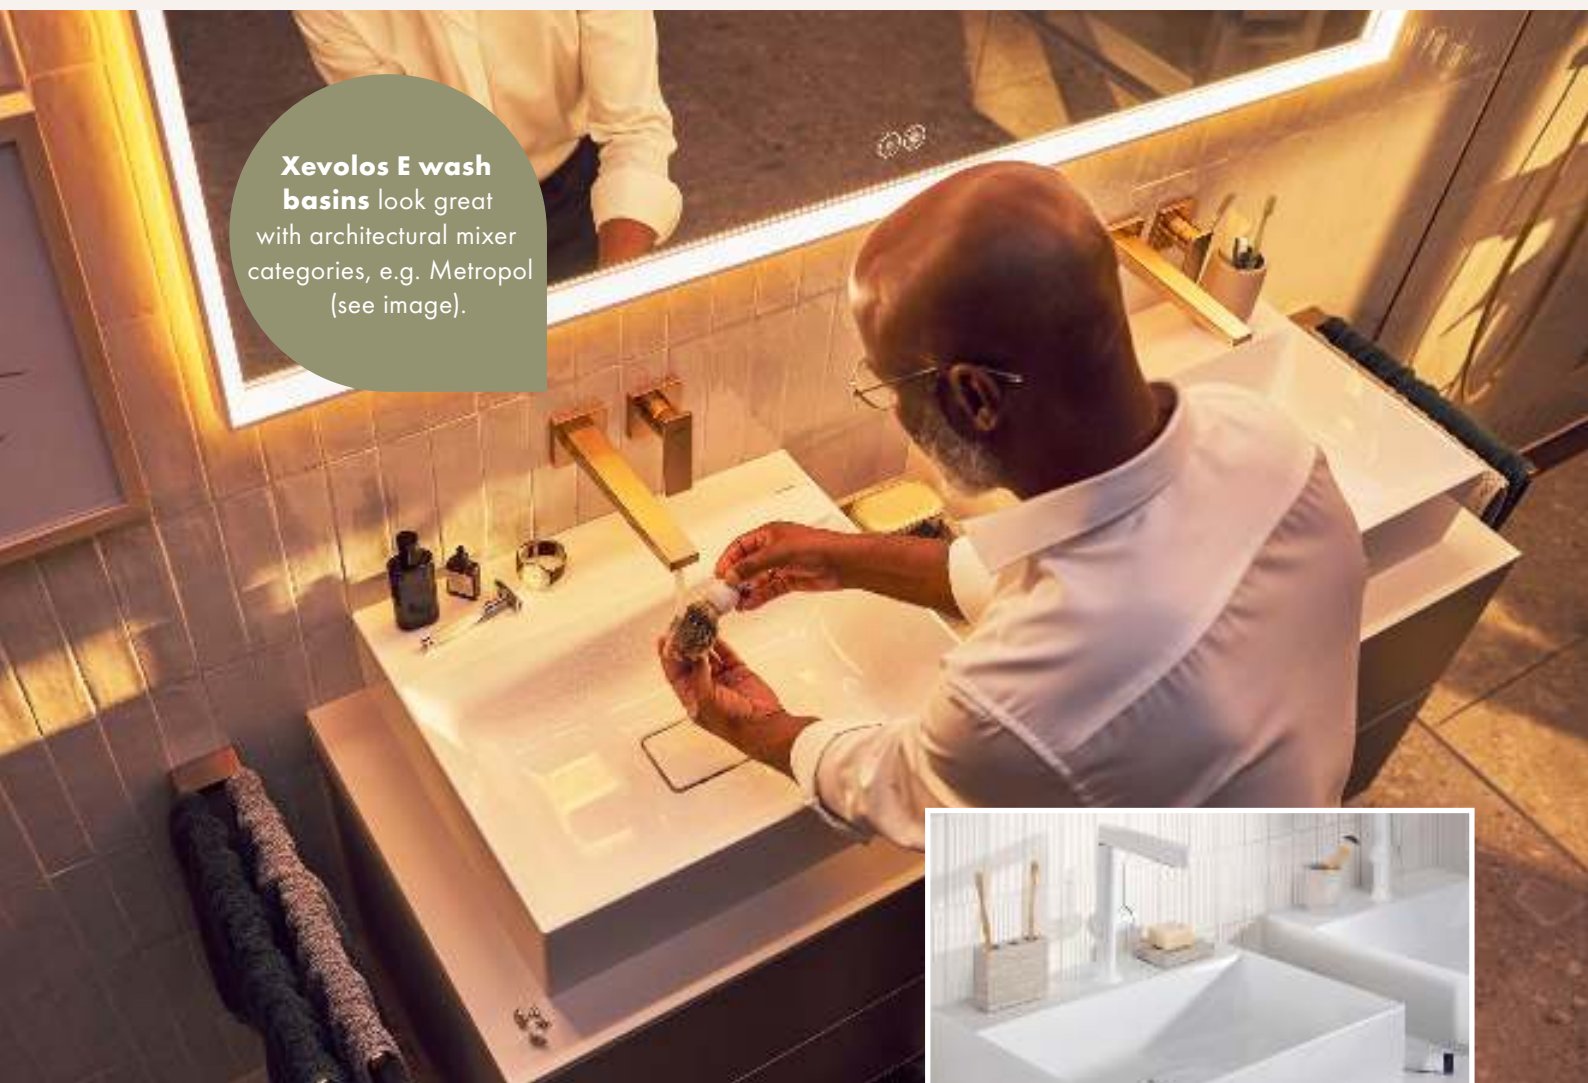

The sideboard's ergonomic seating makes routines such as body care, drying hair or putting on socks easier and more convenient. The seating area has a maximum load capacity of 220 kg.

Xevolos E wash basins

The geometric Xevolos E portfolio of ceramics offers excellent solutions for sophisticated lifestyles and features high-end basins for all needs at the architectural washplace. We offer sizes from 360 to 1,200 mm and the option of one or two wash basins.

Xevolos E wash basins look great with architectural mixer categories, e.g. Metropol (see image).

Striking and linear, yet delicate. Depending on their size, Xevolos E wash basins are available with zero, one or two tap holes.

Top-class timeless style icons

Xevolos E wash basins have inner basins that offer a lot of freedom and make daily routines a pleasure. And the monolithic design with thin walls nevertheless provides plenty of space for bathroom items. High-quality details like the ceramic drain cap and the absence of an overflow hole highlight the elegant concept. The SmartClean glaze comes as standard here.

Xelu

A washplace for more style and storage space

With their gently rounded corners and ingenious design, Xelu Q cabinets and ceramics look and feel great. This high-quality range is perfect for designing a highly personal feel-good zone. Everyone at home is sure to love the stylish softsquare design, the generous storage space and the shelving.

Xelu Q furniture

Various styles, countless options

Dark Walnut? Natural Oak? Or maybe High Gloss White or Diamond Matt Grey? With Xelu Q, the washplace becomes one of a kind. The furniture's softsquare design works really well with the Xelu Q wash basins with rounded corners, transforming the bathroom into a family's happy place or the perfect hideaway for getting the morning routine done in peace.

With **IntraStoris**,
the intelligent dividers

Spacious storage that makes everyone happy: Xelu Q cabinets make everyday family life run so much more smoothly, while intelligent dividers allow everyday life to be organised with a smile.

in Chrome, Matt Black and Matt White.

Xelu Q wash basins

The ceramics in the softsquare design perfectly match the furniture from the same range. The slim edge and softly shaped inner basin make them eye-catching modern features in the bathroom.

Left: Plenty of space for daily items – Xelu Q wash basin with an additional shelf on the right (model with two tap holes, no overflow).

Below: A design gem in the guest toilet – the handrinse basin is the perfect fit for the narrow Xelu Q vanity unit. The cherry on top: the hansgrohe Tecturis S mixer in Polished Gold Optic.

Sensational design and premium product quality: the harmonious, seamless look is emphasised by the inner basin with no overflow hole and an integrated ceramic drain cap. The tap hole bench creates plenty of shelf space – for an even easier way to organise family life. The SmartClean glaze ensures more hygiene and less cleaning effort and is available as an optional extra.

Xilesa

reddot winner 2025

Furniture design that delights each day anew

This furniture series guarantees extraordinary design highlights in the bathroom – at an attractive price. The vanity units and tall cabinets impress people with their timeless, modern and minimalist look. These pieces are available in different finishes and sizes and blend in harmoniously in any bathroom setting.

Countless combinations for endless happy moments

Thanks to the minimalist design and universal fit, Xilesa E can be effortlessly paired with a variety of other hansgrohe products. After all, everyone has their own individual taste.

Ceramics

Easy cleaning and maximum quality

Find out more about
the manufacturer's
guarantee.

Long-lasting joy with our products

In addition to the legal warranty, hansgrohe offers a voluntary manufacturer's guarantee of 20 years on ceramics.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

Bathroom furniture

Storage space, redefined

A strong look meets maximum comfort. With furniture designed to match our wash basins, mixers and mirrors, the dream of the perfect washplace can become reality. Features such as soft opening and closing as well as smart interior dividers help to get through day-to-day life with a smile.

The variety of hansgrohe furniture

A narrow vanity unit for the small countertop basin or an elegant console solution with plenty of shelf space? The hansgrohe range of vanity units offers a wide range of sizes, shapes and colours – high gloss or matt, wood effect or textile – to create individual accents in the main bathroom and guest toilet. Handles, shelves, towel holders and feet add the matching finishing touches to the overall concept.

Wash basin and furniture combinations

Vanity unit for wash basins

Vanity unit for consoles and countertop vanities

Tall and mid-height cabinets

Where exactly are people supposed to store all the tubes, bottles, towels and other items that live in the bathroom? This is a recurring theme, especially in small bathrooms. The tall and mid-height cabinets in the matching colour scheme are perfect for keeping things tidy and at a minimum. And they're made of a bathroom-friendly durable material. Please read the hansgrohe care instructions to ensure the furniture always remains beautiful and moisture-resistant.

Features in hansgrohe furniture

hansgrohe furniture has an impressive level of comfort and sustainability aspects.

PushOpen

These drawers and doors are extremely easy to open. Just give them a tap.

AntiFingerprint

High-quality technology against fingerprints. For carefree morning and evening routines in the bathroom.

SoftClose

Drawers and doors close gently and quietly. This is made possible by integrated dampers.

The wood components used in the Xevolos E, Xelu Q and Xilesa E bathroom furniture series are proven to originate from sustainable forest management. The hansgrohe furniture lines are also DGM certified and have been awarded the following labels: "Golden M", participation in the "Climate Pact for the Furniture Industry" (CO₂ footprint), "Furniture Made in Germany", and the "Emission Label for Furniture" (category "free-standing cabinets": hansgrohe meets the requirement of emission class A).

IntraStoris furniture system

IntraStoris interior divider system

Tidy house, tidy mind. IntraStoris ensures the large drawers and cabinet compartments in Xevolos E, Xelu Q and Xilesa bathroom furniture are always nice and tidy. With this practical system, everything in the bathroom pretty much sorts itself. All bathroom items are stored in the best way possible with the modules in Dark Walnut (Xevolos E) and Natural Oak (Xelu Q, Xilesa). The Matt Black boxes fit all hansgrohe furniture lines.

Bathroom mirrors

Catch glances and capture hearts

hangrohe mirrors create feel-good lighting and good spirits in the bathroom living space. The mirror adds the perfect finishing touches to every dream washplace. When it complements the washplace in a harmonious design and format, it becomes a daily moodbooster.

Xarita

Brighter? Darker? More colourful?

Linear or circular, the 3D light frame with LED technology places the perfect spotlight on the person in the mirror. Its scaled-back design and shape make Xarita mirrors the perfect partners for a wide range of high-quality hangrohe washplaces. They add style to holistic bathroom concepts – and impress people with their intuitive operation. Below: The integrated defog system allows people to see clearly, even after showering.

Finishes

Shapes

Available with:

TouchlessSensor or SmartTouch, defog system, auto-off function, memory function.

Feel-good dreams in colour

Xarita mirrors with SmartTouch technology have eight atmospheric dimmable light colours ("Indirect light" button). One of five dimmable levels, from warm white to cool white, illuminates the washplace ("Direct light" button).

Light colours

-  White
-  Nature
-  Relaxation
-  Good Morning
-  Break Time
-  Good Night
-  Beauty
-  Vitality

Linear and atmospheric

The rectangular Xarita mirrors are available in widths of 36–160 cm (height 80 cm), while round models have diameters measuring 70 and 90 cm.

Xarita Lite

Xarita Lite lets people view their reflection in the most beautiful of designs. These LED mirrors blend atmospherically into custom washplace designs: either in round (S shape) or with gently rounded corners (Q shape). The price is sure to put a smile on people's faces, too.

With this version, the light is switched on and off contactlessly.

With this version, the light is simply switched on and off using the existing light switch.

Available with:

TouchlessSensor or for wall switches, defog system, auto-off function, memory function.

Convenient features in hansgrohe mirrors

A more sustainable view of the world

All Xarita and Xarita Lite mirrors are CE/UKCA compliant, and the mirror glass is 100% recyclable. The mirrors are designed so that individual components can be easily swapped out and replaced. Moreover, the energy class C LEDs have a long service life and excellent colour rendering.

AntiFog

The integrated defog system effectively prevents the mirror surface from fogging up – for a clear view.

SmartTouch

Simply touch the icons in the mirror surface lightly and various functions are switched on or off. SmartTouch is exclusively available for the Xarita range, not Xarita Lite.

TouchlessSensor

This lighting is controlled via infrared sensors. A hand movement under the mirror is enough.

Other benefits

Forgot to switch off? Don't worry! With our mirrors featuring an infrared sensor or SmartTouch, the auto-off function prevents the lighting and heating from remaining on unnecessarily, which helps to save energy. The memory function repeats the last light setting to ensure people are always bathed in the same light when doing make-up or shaving. In other words, hansgrohe mirrors with this feature have a good memory!

- 205 Flush technologies

Cover plates and pre-wall system

- 206 iFrame and iFrame universal

- 210 **Product lines**

Highlight:

The graphite line emphasises the clean, modern design.

LavaPura Element offers plenty of practical functions without overloading the room with technology. The timeless, universal shape blends into any bathroom, regardless of style and size.

LavaPura Element

The shower toilet cleans with the gentle touch of water

For a bathroom that sets new standards: the modern LavaPura Element shower toilet combines comfort, intuitive design and the highest hygiene standards to produce an unrivalled experience.

Greater well-being. Thanks to water-based hygiene

Experts and users agree: there's nothing more natural and effective for cleaning after using the toilet than water itself. Our shower toilet transforms the bathroom into a place that focuses on hygiene and well-being.

For incomparable well-being

The hansgrohe shower toilet takes hygiene and well-being to a new level. The spray mode, water temperature, warm air dryer temperature and seat heating can be individually adjusted to make every moment as comfortable as possible. From gentle to pulsating water sprays, LavaPura Element offers the most pleasant cleaning experience for every need.

RearWash

Shower functions for full freshness

RearWash

Gentle and thorough rinsing with large, air-enriched droplets for maximum comfort, every day.

LadyWash

Extra gentle rinsing experience with a very soft spray, perfectly tailored to feminine needs.

Oscillation

Moves the spray wand back and forth, providing a comfortable and extra thorough rinsing.

Pulsation

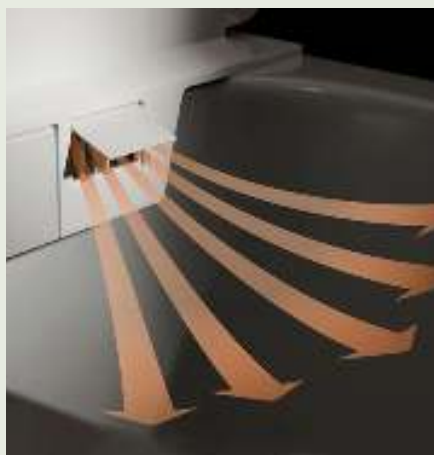

Switches the selected spray mode to massage. For an exceptionally pleasant rinsing experience.

Other feel-good functions

Odor Extraction

Thanks to the odour extraction system under the seat, unpleasant odours in the bathroom are a thing of the past.

Warm Air Dryer

With a temperature that can be set to various levels, the warm air dryer offers even more comfort to perfectly round off the pleasant feeling on the toilet.

Seat Heating

Integrated seat heating for a cosy warm feeling and more relaxation in the bathroom.

More hygiene, easy cleaning

UV Disinfection

The shower wand is disinfected by UV light automatically after every use (exclusively *Staphylococcus aureus* (AS 1.89) and *Escherichia coli* (AS 1.90), Test GB/T 23131-2019).

AquaHelix Flush

This sophisticated water vortex technology cleans the toilet's inner bowl powerfully and quietly.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

HygieneEffect

High-quality glaze that reduces bacteria on the product (exclusively refers to the following bacteria: *Escherichia coli* CECT 434 and *Staphylococcus aureus* CECT 239 (test conducted according to JIS Z 2801:2010)).

QuickRelease

This hinge system is easy to release. For a quick removal of the toilet seat and easy cleaning.

What else can the shower toilet do?

Auto Open

For increased comfort and hygiene, the toilet lid opens and closes automatically via a sensor.

SoftClose

WC seat and cover close gently and silently – thanks to dampers integrated into the hinges.

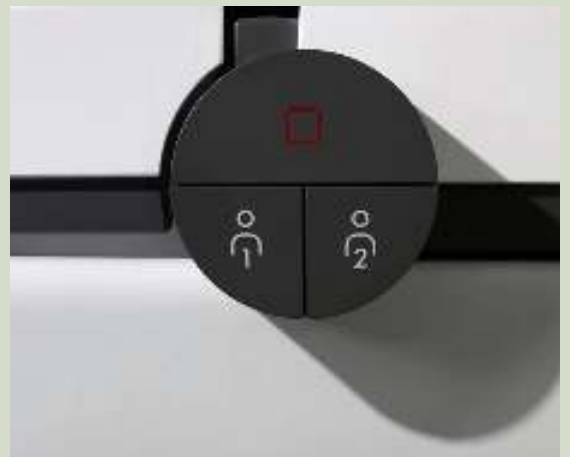

Night light

The nice, safe, night-time guide in the bathroom.

User Profiles

For more convenient use, personal settings can be saved under two user profiles.

Convenience at the touch of a button

At hansgrohe, intuitive operation is everything. All the intelligent functions of LavaPura Element can be effortlessly activated – and settings adjusted to personal preferences. The new comfort zone in the bathroom is either controlled via remote control or the Select push buttons on the toilet itself. No matter where, the user interface remains consistent for simple control of the toilet.

With the Select push buttons integrated on both sides, the main functions can be easily and conveniently controlled.

EluPura and EluPura Original

Two beautiful toilet lines

Our EluPura and EluPura Original ranges offer the perfect toilets and bidets for unique bathroom styles and interiors. Both are available in two design languages: round (S) and softsquare (Q). Their rimless design makes them less susceptible to germs compared to standard toilets.

EluPura

Elegant, high-quality and stylish in every detail

These toilets and bidets round off the modern bathroom and please discerning design fans. The hidden wall mounting creates a seamless appearance perfect for rooms with a minimalist design.

There is also the option to give all hansgrohe toilets a further upgrade, with comfort features such as SoftClose and QuickRelease as well as special glazes to make the toilet even more hygienic (turn to the next page for an overview).

EcoSmart

hansgrohe toilets can achieve amazing results of just 4.5 l of water per flush (suitable flush tank required). A short flush when pressing the small button can even manage with as little as 3 l.

Find out more about EcoSmart.

Long-lasting joy with our products

In addition to the legal warranty, hansgrohe offers a voluntary manufacturer's guarantee of 20 years on ceramics.

Find out more about the manufacturer's guarantee.

EluPura Original

Price-conscious and perfect for every room concept

The range includes toilets and bidets for wall-mounted installation as well as floor-standing models. There are also urinals with different solutions for the water supply and accessories such as seats, lids, flushing tanks and urinal dividers. We make these ceramics in the softsquare design with rounded corners and in the geometric, round design for more harmony in the bathroom. The attachment is openly accessible to make installation easy.

EluPura: comfort and hygiene features

SoftClose

WC seat and cover close gently and silently – thanks to dampers integrated into the hinges.

Quick Release

This hinge system is easy to release. For a quick removal of the toilet seat and easy cleaning.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

HygieneEffect

High-quality glaze that reduces bacteria on the product (exclusively refers to the following bacteria: Escherichia coli ATCC 8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)).

hansgrohe flush technologies

Powerful, low-noise, efficient

AquaHelix Flush

This sophisticated water vortex technology cleans the toilet's inner bowl powerfully and quietly.

AquaFall Flush

Powerful cleaning of the inner bowl of the rimless toilet via a symmetrical surge of water.

AquaChannel Flush

Effective cleaning of the inner bowl activated by powerfully guided water jets.

iFrame Element E:
winner of the iF Design Award.

iFrame

Flush plates with character

These stylish flush plates complete the hansgrohe toiletplace and are the perfect finish in any bathroom. iFrame offers a good solution for every taste and every budget. The plates can create subtle or bold accents with elegant shapes and high-quality FinishPlus colours to achieve an individual, holistic bathroom experience.

iFrame Element E

iFrame Element

A visual highlight

With its appealing design based on the simplicity of a light switch, iFrame Element E combines aesthetics with clever functions. Available in all FinishPlus finishes, the design blends in seamlessly with any hansgrohe bathroom. The high-quality metal is impressively durable with a premium look and feel. What's more, iFrame Element E is convenient to operate – even with an elbow!

iFrame Original S

iFrame universal

The clever solution behind the wall

With decades of experience, hansgrohe wins people over as a reliable partner for universal installation solutions behind the wall. From the classic toilet to the shower toilet, iFrame universal is the perfect addition to any hansgrohe toiletplace. Featuring high-quality and long-lasting components, the concealed flushing tank offers everything needed for effortless installation and maintenance – a smart solution for specialist bathroom retailers.

1 The sturdy wall supports are included in the scope of delivery. The high-quality plastic screws ensure optimum noise reduction.

2 The assembly parts for the toilet and iFrame are pre-sorted and packaged in separate boxes so everything is organised and ready to hand.

3 The robust construction is made of durable materials and designed for a load capacity of at least 400 kg.

4 The flush system is suitable for all wall-mounted toilet types and shower toilets.

5 Height-adjustable feet with brakes – for simple and sturdy anti-slip alignment.

**Ordering and installation made easy**

Installation couldn't be easier, as the process avoids unnecessary complications – including ones behind the wall. When purchased with the hansgrohe iFrame universal concealed flushing tank and the iFrame flush plates, the ordering and installation processes become perfectly aligned.

AddStoris

Accessories for perfect bathroom design

An overview of
our technologies
> Page 231

From soap dispensers to toilet paper holders to towel hooks, these stylish accessories blend seamlessly into any bathroom concept and ensure both a consistent and harmonious look and perfect colour-coordination with other products. After all, good design makes all the difference. Two shapes and six finishes – for design freedom and even more options.

AddStoris S – the cylindrical one

With gentle curves, these accessories give the bathroom a warm and cosy vibe. Some je ne sais quoi for any setting.

AddStoris Q – the rounded one

The clean lines and defined shapes of these accessories work particularly well with flat, linear bathroom designs. For a harmonious yet bold look.

WallStoris

Accessories for individual storage space

This creative system is a stylish, sturdy and safe way to tidy bathroom must-haves. The stylish brand-quality WallStoris modules enhance the bathroom and can be customised and arranged into countless combinations. Simply glue (great for renters!) or screw them to the surface.

WallStoris
renter-friendly bath-
room shelves – simply
glue them on.

XtraStoris

Wall niches for stylish storage

Design fans who want practical and high-quality storage options for their bathroom items appreciate XtraStoris, as the integrated storage solution creates more room to move and keeps the bathroom tidy. The waterproof system also uses the free space on the wall in the most tasteful way possible. The body and frame can be chosen in the bathroom's colours to match other hansgrohe shower products or in different finishes to contrast with them.

Beautifully water-tight thanks to a waterproof installation set and seal liner

XtraStoris Minimalistic: The frameless shower niche can be installed flush with the tiles or wall design or protruding from the wall. For personal design accents in the bathroom.

XtraStoris Individual with design frame: Available in three body colours and six frame colours. Pictured: Body in Matt Black, design frame in Polished Gold Optic.

XtraStoris Rock with tileable door that is easy to open and close thanks to the push-open mechanism. Pictured: Easy-to-clean finish in Matt White.

XtraStoris Original and Rock enable the toilet paper, toilet brush and pedal bin to disappear elegantly into the wall next to the toilet to save space.

Showerplace

Showers, Accessories

Adjustable Shower Head

The angle of the overhead shower can be adjusted and the water spray can be individually adapted.

AirPower

Mixes air into the water. For a soft, low-splash water jet and full, light shower drops.

CoolContact

Thermostat mixer with innovative cooling technology that protects against unpleasant contact or burns.

DropGuard

This innovative function reduces the dripping after stopping the shower to just a few seconds.

EasySplit

This shower head can be easily disassembled to replace parts or separate into individual components.

EcoSmart+

This economical shower consumes up to 60% less water than our conventional model thanks to a flow limiter.

EcoSmart

Shower that only uses 8 l/min and thus reduces water thanks to a flow limiter. Eco-friendly and wallet-friendly.

EcoStop+

Full control when saving water. The EcoStop function supports a more sustainable shower by initially reducing the water flow to a maximum of 10 l/min (at 3 bar). The water flow can be increased as necessary by actively and deliberately pressing the EcoStop button.

FastDrain

The shower's quick and efficient emptying function reduces the dripping time after showering.

FlexPower

Flexible, elastic nozzles in the spray head ensure greater comfort and efficiency when showering.

LowPressure

Low-pressure technology enables use at pressures as low as 0.2 bar. Suitable for boilers/heat exchangers.

PushSlider

The height of the hand shower can be single-handedly and smoothly shifted at the touch of a button.

QuickClean+

Elastic spray nozzles open and close themselves and prevent limescale buildup.

QuickClean

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

SafetyStop

Safety lock at over 40 °C – temperature limit, which prevents excessively hot water from escaping.

Rotatable Bath Spout

The bath filler can be swivelled under the thermostatic mixer when not in use. Nice and tidy.

Select

A playful way to control the water flow, shower or spray type at the simple touch of a button.

VarioFix

Full installation flexibility by using existing holes for easy renovation.

WaterBoost

Press and hold the side boost button to temporarily increase the hand shower water flow.

Water Flow Control

Actively regulates water consumption – the amount of water can be adjusted via the control dial.

XXL Performance

Large-scale distribution of the water in the shower so that the whole body is cocooned in feel-good droplets.

BalanceAir

Harmonious combination of soft shower rain and a dynamic spray that pampers you completely.

ImpactRain

Massaging spray with an innovative design creates an intense showering feeling with just a little water.

Intense PowderRain

Intense spray consisting of thousands of micro-fine droplets. Thorough, soothing and low-splash.

IntenseRain

Powerful, stimulating water spray that washes away tiredness and leaves people feeling fit.

Massage

Invigorating, focused and powerful spray for the home spa that allows the day's stresses to simply drain off.

MonoRain

Focused and extremely gentle spray soothing wellness moments and hydrotherapeutic showering.

PowderRain

Relaxing, micro-fine droplets that softly and silently cocoon the body. For sensual showering.

Rain

Invigorating and energizing showering indulgence with full shower rain designed for everyday shower pleasure.

RainAir

Full shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

RainAir XL

Large shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

RainFlow

Powerful stream that bathes the entire body and feels like a waterfall for wonderful relaxation.

RainStream

Lavish downpour consisting of individual pearl-like droplets that invigorate mind, body and soul.

Shampoo

Intense water spray that rinses out shampoo in no time at all and is also energising and stimulating.

SoftRain

Caressing water sprays that gently swirl around the body. An act of kindness for the skin, mind and soul.

TurboRain

Invigorating shower rain offering powerful refreshment. Just what is needed in the mornings or after exercise.

Whirl

Concentrated massage spray that helps to nicely and gently wash away everyday tensions and stress.

FurSpray

Specialist dog spray type for thoroughly rinsing fur, right down to their undercoat.

LegSpray

Soothing spray type for your dog. Gently cleans their legs and other sensitive body parts.

PawSpray

Extremely soft spray for dogs that gently and quickly cleans dirty paws. A stress-free routine for you and your dog.

Drain systems for the shower and bath tub

Adjustable Frame Height

The frame is used to easily bring the shower drain to tile level, creating a perfect finish.

Dryphon

An improved waterless siphon with a high drainage capacity of 60 l/min and minimal cleaning effort.

Easy Clean Siphon

The odour trap itself can be removed for cleaning, even once the drain has been installed.

High drainage capacity

Large overhead showers require a high drainage capacity. This siphon manages up to 60 l/min.

QuickClean

Easy cleaning of the shower drain: remove the cover with grate removal tool and remove all dirt and residue.

Resizable Cover Length

This shower drain can be easily shortened on site so that it fits in any type of shower area.

Water Damage Protection

The high-quality installation set features a pre-assembled seal and is 100% waterproof.

In-floor Installation

Shower drain that is suitable for free in the floor installation in any type of shower area.

One-sided Installation

Shower drain that is suitable for wall installation in any type of shower area – chic and reliable.

Two-sided Installation

An appealing and reliable drainage solution. This shower drain is installed between two walls.

Three-sided Installation

Shower drain that is suitable for wall installation between two side walls in any type of shower area.

Water control

Concealed and exposed controls

AirPower

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

CoolContact

Thermostat with innovative cooling technology for blissful and indulgent showering.

EcoStop+/EcoStop

Full control when saving water. The EcoStop+ function supports a more sustainable shower by initially reducing the water flow to a maximum of 6 l/min, while the EcoStop function regulates the volume to a maximum of 10 l/min (each at 3 bar). The water flow can be increased as necessary by actively and deliberately pressing the EcoStop+/EcoStop button.

QuickClean

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

SafetyStop

Safety lock at over 40 °C – temperature limit, which prevents excessively hot water from escaping.

Select

A playful way to control the water flow, shower or spray type at the simple touch of a button.

Thermostat

Thermostat with integrated temperature control for constant water temperature.

Water Flow Control

Actively regulate water consumption – the amount of water can be adjusted using the control dial.

Mixers

AirPower

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

ComfortZone

Comfort at all levels – the tap fits in perfectly with the chosen wash basin settings.

CoolStart

Faucet that helps save energy by only allowing hot water to flow when the lever is actively moved.

EcoSelection

In the first lever position (Eco), the flow rate is reduced by around 50%, and full flow is reached at maximum opening.

EcoSmart+

Tap that saves up to 20% more water compared to our conventional models thanks to a flow limiter.

EcoSmart

Tap that only uses 5 l/min and thus reduces water thanks to a flow limiter. Eco-friendly and wallet-friendly.

LowPressure

Low-pressure technology enables use at pressures as low as 0.2 bar. Suitable for boilers/heat exchangers.

Pull-out Faucet

Significantly more space to move and maximum flexibility around the wash basin, for example when washing hair.

QuickClean

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

Remove & Clean

Remove and clean the aerator in no time at all with the aid of a coin – no tools required.

Select

One press of a button is all it takes to regulate the flow of water at the wash basin.

Sensor Activation

Contactless tap that responds to infrared rays. Water only flows when the tap can sense warmth from the hands.

Washplace

AquaUnit

ComfortZone

Comfort at all levels – the tap fits in perfectly with the chosen wash basin settings.

Made to fit NoiseReduction

For an easy installation, this product comes with a soundproofing mat matched to its shape.

QuickClean+

Elastic spray nozzles open and close themselves and prevent limescale buildup.

Thermostat

Thermostat with integrated temperature control for constant water temperature.

LaminarSpray

Crystal-clear spray for the wash-basin with no air mixed in, perfect for quickly filling vessels.

Rain

Inviting, full jet from below – efficient, invigorating and relaxing at the same time.

Wash basins

HygieneEffect

High-quality glaze that reduces bacteria on the product (exclusively refers to the following bacteria: Escherichia coli CECT 434 and Staphylococcus aureus CECT 239 (test conducted according to JIS Z 2801:2010)).

Made to fit NoiseReduction

For an easy installation, this product comes with a soundproofing mat matched to its shape.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

Bathroom furniture

AntiFingerprint

High-quality technology against fingerprints. For carefree morning and evening routines in the bathroom.

MoistureProof

This high-quality product is made of durable material that is suitable for bathrooms.

PushOpen

These drawers and doors are extremely easy to open. Just give them a tap.

SmartStorage

The space in the drawer, without a siphon cut-out, offers individual and flexible storage – with IntraStoris.

SmoothSurface

The surface of this furniture has a great, uniform haptic. For pleasant touches and a beautiful look.

SoftClose

Drawers and doors close gently and quietly. This is possible by integrated dampers.

Mirrors

AntiFog

The integrated defog system effectively prevents the mirror surface from fogging up – for a clear view.

MoistureProof

This high-quality product is made of durable material that is suitable for bathrooms.

SmartTouch

Simply touch the icons in the mirror surface lightly and various functions are switched on or off.

Touchless Sensor

This lighting is controlled via infrared sensors. A hand movement under the mirror is enough.

Toiletplace

Shower toilet

AquaHelix Flush

Water vortex technology that cleans the inner bowl of the toilet powerfully yet quietly.

Auto Open

For increased comfort and hygiene, the toilet lid opens and closes automatically via a sensor.

HygieneEffect

High-quality glaze that reduces bacteria on the product (exclusively refers to the following bacteria: Escherichia coli CECT 434 and Staphylococcus aureus CECT 239 (test conducted according to JIS Z 2801:2010)).

Night light

The nice, safe, night-time guide in the bathroom.

Shower toilet

Odor Extraction

Thanks to the odour extraction system under the seat, unpleasant odours in the bathroom are a thing of the past.

QuickRelease

This hinge system is easy to release. For a quick removal of the toilet seat and easy cleaning.

Seat Heating

Integrated seat heating for a cosy warm feeling and more relaxation in the bathroom.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

SoftClose

WC seat and cover close gently and silently – thanks to dampers integrated into the hinges.

UV Disinfection

The shower wand is disinfected by UV light automatically after every use (exclusively *Staphylococcus aureus* (AS 1.89) and *Escherichia coli* (AS 1.90), Test GB/T 23131-2019).

User Profiles

For more convenient use, personal settings can be saved under two user profiles.

Warm Air Dryer

With a temperature that can be set to various levels, the warm air dryer offers even more comfort to perfectly round off the pleasant feeling on the toilet.

LadyWash

Extra gentle rinsing experience with a very soft spray, perfectly tailored to feminine needs.

Oscillation

Moves the spray wand back and forth, providing a comfortable and extra thorough rinsing.

Pulsation

Switches the selected spray mode to massage. For an exceptionally pleasant rinsing experience.

RearWash

Gentle and thorough rinsing with large, air-enriched droplets for maximum comfort, every day.

Toilets, bidets, urinals

AquaChannel Flush

Effective cleaning of the inner bowl activated by powerfully guided water jets.

AquaFall Flush

Powerful cleaning of the inner bowl of the rimless toilet via a symmetrical surge of water.

AquaHelix Flush

Water vortex technology that cleans the inner bowl of the toilet powerfully yet quietly.

EcoSmart

Toilet that can achieve excellent flushing results with as little as 4.5 l per flush (suitable flushing tank required).

HygieneEffect

High-quality glaze that reduces bacteria on the product (exclusively refers to the following bacteria: *Escherichia coli* ATCC 8739 and *Salmonella enterica* ATCC 13076 (test conducted according to ISO 22196: 2011-08)).

Made to fit NoiseReduction

For an easy installation, this product comes with a soundproofing mat matched to its shape.

QuickRelease

This hinge system is easy to release. For a quick removal of the toilet seat and easy cleaning.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

SoftClose

WC seat and cover close gently and silently – thanks to dampers integrated into the hinges.

Accessories and wall niches

Accessories

EasyClick

Hooks, baskets & co. can simply be attached to the wall bar and removed or rearranged at any time.

Glue or Screw Fix

The accessory can be affixed using the glue that comes with the product – or it can be screwed on.

MoistureProof

This high-quality product is made of durable material that is suitable for bathrooms.

PushSlider

The height of the hand shower can be single-handedly and smoothly shifted at the touch of a button.

ScrewFixation

The accessory can be mounted securely and stylishly on the wall with just a few screws and hand movements.

Wall niches

Variable Installation Depth

The wall niches with a variable installation depth provide an individual appearance in walls.

Water Damage Protection

The high-quality installation set features a pre-assembled seal and is 100% waterproof.
